

## mRNA is an Operating System – Technology Platform per Moderna Website

### Description

**April 17, 2023:** More experts have come forward demonstrating that the concept of biological mRNA in the COVID-19 injections [is a sham](#); and that adults and children are, in fact, being injected with nanoparticle technologies.

In 2021 Moderna proudly boasted that their mRNA is a gene-editing technology platform using software programs, called mRNA, to encode new genetic codes in human cells.

Per Moderna's 2021 website (screenshot captured July 2, 2021),

***“We set out to create an mRNA technology platform that functions very much like an operating system (OS) on a computer. It is designed so that it can plug and play with different programs. In our case, the ‘program’ or ‘app’ is our mRNA drug – the unique sequence (program) that codes for a protein.”*** – Moderna website, July 2021

The screenshot shows the Moderna website's 'mRNA Platform' section. The header includes the Moderna logo and navigation links: Publications, Newsroom, Investors, Blog, Careers, and Contact Us. Below the header, there are tabs for 'mRNA Technology', 'COVID-19 Resources', 'Pipeline', and 'Response'. The main heading is 'mRNA Platform: Enabling Drug Discovery & Development'. Below this, there are sub-headings: 'The Science of mRNA', 'Our mRNA Platform' (which is underlined), 'Research Engine', 'Early Development Engine', and 'Innovation'. The 'Our Operating System' section explains that Moderna's mRNA technology platform functions like an operating system on a computer, designed to plug and play interchangeably with different proteins. It states that the 'program' or 'app' is the mRNA drug sequence. A dedicated team of scientists and engineers focuses on advancing Moderna's platform technology, organized around key disciplines like biology, chemistry, formulation & delivery, bioinformatics, and protein engineering. A diagram illustrates the flow from DNA to mRNA to Protein. DNA is labeled 'STORAGE' and described as storing instructions for proteins in the nucleus. mRNA is labeled 'SOFTWARE' and described as a temporary set of instructions for cells to make a protein, made using DNA. Protein is labeled 'APPLICATION' and described as forming by performing functions required by the body, with some proteins being made artificially.

## Our Operating System

Recognizing the broad potential of mRNA science, we set out to create an mRNA technology platform that functions like an operating system on a computer. It is designed so that it can plug and play interchangeably with different proteins. In this case, the "program" or "app" is our mRNA drug - the unique mRNA sequence that codes for a protein.

We have a dedicated team of several hundred scientists and engineers solely focused on advancing Moderna's platform technology. They are organized around key disciplines and work in an integrated fashion to advance knowledge in mRNA science and solve for challenges that are unique to mRNA drug development. Some of these disciplines include biology, chemistry, formulation & delivery, bioinformatics and protein engineering.

**DNA** → **mRNA** → **Protein**

**STORAGE**  
DNA stores instructions for proteins in the nucleus

**SOFTWARE**  
mRNA is a temporary set of instructions for cells to make a protein; mRNA is made using DNA

**APPLICATION**  
Proteins form by performing functions required by the body; some proteins are made artificially

The 2021 Moderna site clearly defines mRNA as a software program that makes 'proteins' (artificially-

programmed genetic material foreign to the human species) in humans. The mRNA injections do **not** contain biological RNA, but contain programmable technologies/electronic devices.

Pfizer describes their mRNA as a gene-editing technology on their website as well, **not** as a biological agent (vaccine).

Dr. Malone describes mRNA as the entry point to the suite of technologies to merge human biology with non-human biology and technology, aka transhumanism.

## mRNA | "Transhumanism, Is One of the Agendas of the Forum That's Not Hidden, That's Not a Conspiracy & The mRNA Vaccines As An Entry Point. Opening That Space Ethically Otherwise." - Dr. Robert Malone

**Doctor Robert Malone:** *It's not a conspiracy, **transhumanism**. They talk about the RNA (mRNA) vaccines as an entry point, just kind of opening that space ethically and otherwise. So, that's part of the push for why these particular products (mRNA*

*vaccines), is it relates to that transhumanism agenda.*

**Glenn Beck:** *Explain for anybody who doesn't know, transhumanism, explain it break it down?*

**Doctor Robert Malone:** *So, **transhumanism is the technology suite, I think, is the best way to put it, around the idea of the both mechanical and biological modification of humans.***

mRNA 'vaccine technology' is bioweapon technology that was invented for and is being used to force the merger of human biology with non-human biology and technologies. In 2017, a patent partially owned by the NIH was filed for the use of mRNA [vaccine technology as a bioweapon](#).

By definition, mRNA 'vaccines' are the epitome of bioweapon technology and is being used to destroy the human species, *homo sapiens*. The intentional destruction (extermination) of the human species

using mRNA technology is an act of biowarfare.

On September 12, 2022, President Biden signed the [Executive Order](#), ***Advancing Biotechnology and Biomanufacturing Innovations for a Sustainable, Safe, and Secure American Bioeconomy***.

The [Execute Order](#) states, “***We need to develop genetic engineering technologies and techniques (mRNA software) to be able to write circuitry for cells and predictably program biology the same way in which we write a software and program computers.***”

The “*Genetic engineering technologies that can program and control cells inside of Americans’ bodies in the same way a software program determines a computer’s functionality and responsiveness,*” have already been developed and ‘installed’ in the majority of Americans; they’re called COVID-19 mRNA vaccines.

Per Moderna’s patent (found on their current website), the mRNA ‘vaccines’ contain ‘*self-assembled nanoparticles that may be fully programmable.*’

diameter particle that can remain stable at high temperatures (150° C.) (Grabow and Jaegar, Nature Materials 2012, 11:269-269; herein incorporated by reference in its entirety). Additionally these microsponges may be able to exhibit an extraordinary degree of protection from degradation by ribonucleases.

In another embodiment, the polymer-based self-assembled nanoparticles such as, but not limited to, microsponges, may be fully programmable nanoparticles. The geometry, size and stoichiometry of the nanoparticle may be precisely controlled to create the optimal nanoparticle for delivery of cargo such as, but not limited to, polynucleotides, primary constructs and/or mRNA.

Pfizer, the FDA, and many leaders have lied to the American people because they have been manipulated into following an agenda that includes forcing genetic mutations to the human genome and reprogramming the cellular function of cells of our bodies, including producing harmful spike proteins.

When the FDA met with Pfizer and the rest of industry on October 22, 2020, they reviewed the harmful clinical outcomes of using COVID-19 mRNA injections on adults and children.

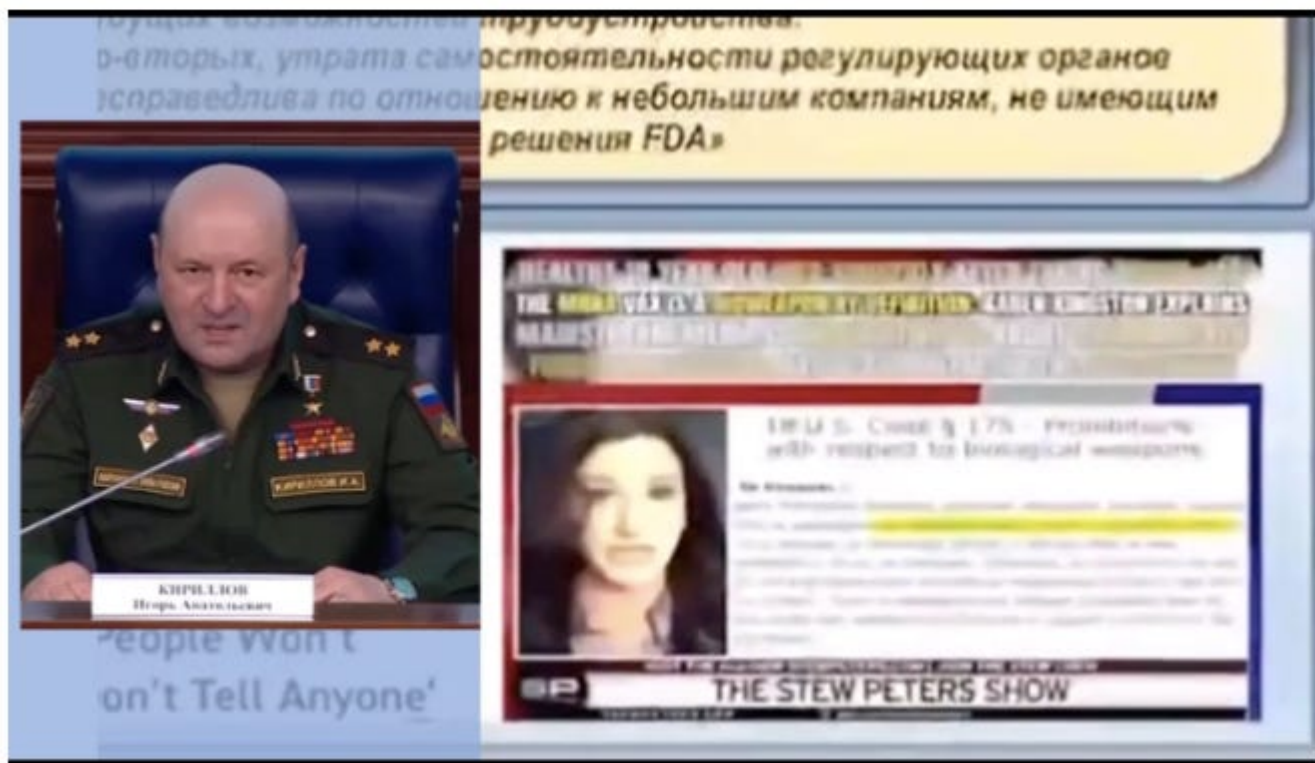

These are not side effects of a vaccine, these are the Intended Consequences of a bioweapon. The mRNA technology is causing an unprecedented level of disease, disabilities and death, because that's what bioweapons do.

*For I want you to know how great a struggle I have for you...and for all who have not seen me face to face, that their hearts may be encouraged, being knit together in love, to reach all the riches of full assurance of understanding and the knowledge of God's mystery, which is Christ, in whom are hidden all the treasures of wisdom and knowledge.*

***I say this in order that no one may delude you with plausible arguments.***

Lieutenant General Krillilov, the Russian Military Chief of Nuclear and Biowarfare, cites my med-legal analysis in his most recent global briefing on Pfizer's role in the use of mRNA technology bioweapons on civilians under the guise of 'safe and effective vaccines' and has launched a global criminal prosecution case against Pfizer. Lieutenant General Krillilov cites my work and affirms that the mRNA vaccines are by definition agents of biowarfare per 18 USC 175.

*“Walker’s statements (Project Veritas) are backed up by those of former Pfizer employee Karen Kingston. She explicitly stated that the U.S. pharmaceutical company’s products, “are, by definition, biological weapons.” In doing so, she refers to the U.S. law, which defines a biological weapon as any biological agent, toxin, or delivery device, the definition of which includes vaccines with mRNA technology.” - Lieutenant General Igor Kirillov, Chief of Russian Military Nuclear, Biological, and Chemical Protection Troops*

I've been fighting this psychological war to educate Americans and our government officials for two years now. If you want America to take control of this biowarfare nightmare, please reach out to government leaders and powerful media influencers to request for me to present the evidence that can take down Pfizer and stop the mRNA technology platform *dead in its tracks*. People often ask me for advice on supplements and medical treatments. I can't make medical recommendations for you, but for me, I know that reducing the level of acid in your body and taking a supplement that contains zeolite can help remove toxic metals from your body. I personally use these products to detox (Pure Body Extract (Zeolite), Super Green Juice, Organic Super Fiber, Organic Super Protein) which [you can order here](#).
