

Musk Challenges Sexual Harassment Accuser To “Describe” Part Of His Body

Description

USA: Elon Musk **has denied a sexual harassment allegation** made by a former flight attendant – and has challenged those making the accusations to **“describe just one thing, anything at all (scars, tattoos, ...) that isn’t known by the public,”** adding “She won’t be able to do so, because it never happened.

But I have a challenge to this liar who claims their friend saw me “exposed” – describe just one thing, anything at all (scars, tattoos, ...) that isn’t known by the public. She won’t be able to do so, because it never happened.

The alleged 2016 incident – as told to *Business Insider* by a friend of the accuser, is said to have occurred during a private flight to London in late 2016. **Musk is accused of exposing his erect penis to the woman, rubbing her leg without consent, and offering to buy her a horse if she gave him an erotic massage and “do more,”**

implying the performance of sex acts, according to a declaration by the flight attendant's friend.

Two years later, Musk, SpaceX and the attendant entered into a **\$250,000 agreement** in which she agreed not to sue, and to sign non-disclosure and non-disparagement clauses.

Musk called the allegation a "politically motivated hit piece" which "should be viewed through a political lens."

"This is their standard (despicable) playbook," Musk added.

The attacks against me should be viewed through a political lens – this is their standard (despicable) playbook – but nothing will deter me from fighting for a good future and your right to free speech

Exactly

Musk told *Insider* in an email that there is "a lot more to this story," adding "If I were inclined to engage in sexual harassment, this is unlikely to be the first time in my entire 30-year career that it comes to light."

Exactly. Moreover, the "friend" in question who gave the interview to BI, is a far left activist/actress in LA with a major political axe to grind.

And, for the record, those wild accusations are utterly untrue

Last but certainly not least, Musk tweeted: "Finally, we get to use Elongate as scandal name. It's kinda perfect."
