

NOT BANNING IVERMECTIN COULD HAVE SAVED MORE LIVES: US FLCCC DR. PIERRE KORY | INDIA AHEAD NEWS (VDIEO 28 min)

Description

INDIA: Study says that ivermectin improves recovery and reduces mortality in the critically ill patients. It also reduces Covid transmission. Tamil Nadu could have avoided many deaths if it hadn't banned Ivermectin, says US Covid expert Dr Pierre Kory. He further said WHO, US and India's regulators are under the influence of big pharma.
