### Description

UKRAINE: 18:33 The Russian Armed Forces have taken control of all main communication, supply and reserve lines of the Ukrainian army – Russian Defence Ministry.

18:17 A total of 124 aircraft and 77 helicopters, 214 anti-aircraft missile systems, 323 unmanned aerial vehicles, 1,767 tanks and other armoured combat vehicles, 186 multiple rocket launchers, 741 field artillery guns and mortars, and 1,657 special military vehicles have been destroyed since the start of the special military operation.

18:16 During the day, operational-tactical and unmanned aircraft hit 69 Ukrainian military facilities. Among them: three command posts, two multiple rocket launchers, eight ammunition depots and rocket and artillery weapons and 52 strongholds and areas of ammunition concentration.

18:10 Russian Defence Ministry statements:

All main tasks of the Russian Armed Forces in the Kiev and Chernihiv directions have been fulfilled. Scheduled regrouping of troops in the Kiev and Chernihiv directions is under way. At the first stage of the operation, the plan was to force the enemy to concentrate his forces in order to hold the large cities, to tie them up, and these goals have been achieved.

At the same time, the Russian army was pursuing another objective: in the absence of an influx of fresh enemy forces from the west and centre of Ukraine, to create the conditions for the final stage of the operation to liberate the Donbas republics. This objective was also fulfilled. The Russian military have broken through the enemy's heavily fortified defences, crossed the Shaitanka River and are fighting on the outskirts of Velyka Novoselka. The nationalist formations of the Zolotaya Niva settlement are being cleared out.

LPR forces continue their offensive on Severodonetsk, battles are under way to clear the settlement of Zhytlovka, Ukrainian nationalist battalions in the Severodonetsk direction are suffering serious losses. The Kiev regime has seriously considered using biological weapons against the population of Donbass and Russia.

18:03 The Volkssturm has booby-trapped all exits from Kharkiv to prevent civilians from breaking through to calm areas. Sergei Bolvinov, head of the investigation department of the main directorate of the Kharkiv National Police, says that two people were killed and five others were injured yesterday when they blew themselves up by one of these mines. Requires people to stop trying to leave the war zone.

17:19 No active combat operations are taking place in the Izyum direction, there are local battles. Artillery skirmishes, AFU attempts to counterattack, but weakly. Everything is frozen in anticipation.

17:15 The Russian Armed Forces' MLRS are working on the AFU in the Mykolayiv region from the Kherson area.

17:00 An eternal flame is lit at the Brothers' Grave memorial in Melitopol, which is under Russian troop control.

16:32 There is incontrovertible evidence that Kiev was planning an offensive on Donbass – Medinsky.

16:31 "Shame" and "Killers of children of Donbas" – such inscriptions have been painted on the "ATO memorial" by residents of Kherson. This way Kherson residents demonstrated their real attitude towards the AFU soldiers who fought against civilians.

16:20 The distribution of humanitarian aid by the Russian Armed Forces continues in Kherson. More than a thousand residents of Kherson received basic necessities delivered to the Kherson region from the Russian Federation. Pensioners, disabled people and women with children were the first to receive aid from the Russian military.

15:43 Columns of Russian military equipment in Kherson were spotted.

13:57 An Italian journalist openly states that many Western media distort information about the events in Ukraine, concealing the fact of Nazism flourishing in the ranks of the AFU and terror against civilians.

12:58 Rosgvardiya ensures order in liberated Melitopol.

12:50 Kiev regime uses new city synagogue building in Uman as collection and transfer points for weapons and Nazis to take part in military operations.

11:30 AFU S-300 complex destroyed in Zhytomyr region, near Malyn.

11:06 Briefing by the Russian Defence Ministry:

– On March 20, President Zelensky, in a video address to the Israeli Knesset, accused Russia of allegedly striking the town of Uman in the Cherkasy region. This is a cynical lie. In the course of a special operation, the armed forces of the Russian Federation do not strike civilian objects. All the more so, they do not attack places of worship or any other places of public worship.

– The Jewish worship facility in Uman is being deliberately used by the Kyiv nationalist regime for military purposes.

- A Ukrainian Air Force Su-24 was shot down near the village of Tumen in the Rivne region near the Ukrainian-Belarusian border in an aerial battle.
- High-precision missiles destroyed large fuel depots in the areas of Starokonstantiniv and Khmelnytskyi, from which fuel had been supplied for the Ukrainian armed forces' armoured vehicles in Donbas. The Iskander multiple rocket launcher system destroyed two large rocket and artillery ammunition depots in Kamenka, Donetsk Region.
- The Air Force destroyed 10 Ukrainian UAVs in the areas of Izyum, Novaya Kakhovka, Donetsk, Mykolaiv, Berdyansk, Horlivka, Luhansk and Rubizhne during the day.

10:40 Russian Defence Ministry says:

- Kiev orders Nazi battalions to make staged videos of alleged killing of civilians and looting by Russian military;
- Neo-Nazis are holding more than 4.5 million citizens and 6,500 foreigners;
- More than 19,000 people evacuated to Russia from dangerous areas of Ukraine, DPR and LPR in 24 hours;
- More than 22,500 tonnes of humanitarian aid prepared for Ukraine in Russia;
