

'Pandemic Treaty' Is A Spreading Plague

Description

Story at-a-glance

- The globalist cabal wants to monopolize health systems worldwide, and a stealth attack is already underway in the form of an international pandemic treaty, proposed by the World Health Organization
- The treaty is a direct threat to a nation's sovereignty to make decisions for itself and its citizens, and would erode democracy everywhere. Not only would the treaty empower the WHO to mandate COVID jabs and vaccine passports globally, it could potentially also expand the WHO's power to dictate all health care policy worldwide
- The treaty would also give the WHO the power to censor health information worldwide. This would be disastrous, as the WHO has a long history of corruption and health policy failures that are intrinsically linked to conflicts of interest
- When people are harmed by the WHO's health policies, there's no accountability because the WHO has diplomatic immunity
- Bill Gates, the second largest funder of the WHO, has also been funding pandemic exercises, including Event 201 and the Nuclear Threat Initiative's exercise on international response to deliberate biological events. This scenario involved a deliberate release of a genetically engineered bioweapon — a pneumonic plague —

for which there is no available treatment. Both exercises were held in 2019

The Pandemic Treaty Is a Spreading Plague

Analysis by Dr. Joseph Mercola

The globalist cabal wants to monopolize health systems worldwide, and a stealth attack is already underway in the form of an international pandemic treaty.¹ The negotiations for this treaty began March 3, 2022.² As reported by The Pulse (video above):

“Coming off the back of the COVID-19 pandemic, the World Health Organization is proposing a new pandemic treaty they’re hoping will be accepted by enough member countries to become a reality by 2024.”

According to Director-General Tedros Adhanom Ghebreyesus, “me-first” approaches “stymie the global solidarity needed” to address global threats. His solution? Give the WHO all the power.

“The pandemic treaty is a direct threat to a nation’s sovereignty to make decisions for itself and its citizens, and would erode democracy everywhere.”

Over the past two years, in the name of keeping everyone “safe” from infection, the globalists have justified unprecedented attacks on democracy, civil liberties and personal freedoms, including the right to choose your own medical treatment. Now, the WHO wants to make its pandemic leadership permanent, and to extend it into the health care systems of every nation.

Treaty Threatens National Sovereignty

As noted by The Pulse, “there are a number of things in the treaty that the people of the world need to consider before going down this path.” In the featured video, The Pulse’s Joe Martino interviews Shabnam Palesa Mohamed, a member of the steering committee of the World Council for Health, who points out that the treaty gives the WHO:

“... an inordinate amount of power to make decisions in sovereign countries as to how people live and how they deal with pandemics, from lockdowns to mandates over treatment.”

In short, it would create a one-size-fits-all approach to disease, without regard for all the varying situations found in individual countries, and this is something we already know doesn’t work. The treaty is a direct threat to a nation’s sovereignty to make decisions for itself and its citizens, and would erode democracy everywhere.

At the same time, it would cost each member country millions of dollars to participate in this process. As explained by Mohamed, the treaty will need to go through a voting process at the World Health Assembly in 2023. They need a majority for it to pass and, if passed, all member countries will be

bound by it.

The Treaty Is 'Invalid and Unlawful'

Another concern raised by Mohamed is that many countries don't even know about this treaty as of yet, and it's possible that the WHO might try to push for earlier implementation than 2024 — all without public participation or input. "It is undemocratic, it is unconstitutional and therefore it makes the treaty invalid and unlawful," she says.

She also highlights the WHO's history of corruption and many health policy failures, which are "intrinsicly linked to conflicts of interest." In an open letter on the WHO's pandemic treaty, the World Council for Health writes, in part:3

"The proposed WHO agreement is unnecessary, and is a threat to sovereignty and inalienable rights. It increases the WHO's suffocating power to declare unjustified pandemics, impose dehumanizing lockdowns, and enforce expensive, unsafe, and ineffective treatments against the will of the people.

The WCH [World Council for Health] believes that the people have a right to participate in any agreement that affects their lives, livelihoods, and well-being.

However, the WHO has not engaged in a process of public participation, which is evidence that its priority is capturing more power for itself and its corporate accomplices, than serving the interests of the people. Without an unbiased democratic process, any agreement by the WHO, acting via the United Nations, will be unlawful, illegitimate, and invalid.

Historically, the WHO leadership has failed the people. Among many examples, it approved the injurious H1N1 (swine flu) vaccine for a controversially declared pandemic.

Equally, the WHO failed during the COVID-19 chapter as it encouraged lockdowns, suppressed early preventive treatments, and recommended product interventions that have proven to be neither safe nor effective.

The WHO cannot be allowed to control the world's health agenda, nor enforce biosurveillance. While it receives funding from public sources belonging to the people, it is caught in a perpetual conflict of interest because it also receives substantial funding from private interests that use their contributions to influence and profit from WHO decisions and mandates.

For example, the Gates Foundation and the Gates-funded GAVI vaccine promotion alliance, contribute over \$1 billion a year."

Another concern is the fact that when people are harmed by the WHO's health policies, there's no accountability because the WHO has diplomatic immunity. According to Mohamed, "the WHO should not be making ANY decisions about world health in the future."

The Ultimate Power Grab

As noted by Martino, while the treaty claims to be focused on pandemic planning and responses, there's serious concern that it could be expanded to cover other areas of health as well. Mohamed agrees, saying that it could potentially be expanded, using the WHO's constitution as the basis for that expansion. Article 2 of the WHO's constitution states:

"In order to achieve its objective, the functions of the Organization shall be: a) to act as the directing and coordinating authority on international health work ... k) to propose conventions, agreements and regulations, and make recommendations with respect to international health matters ...

s) to establish and revise as necessary international nomenclatures of diseases, of causes of death and of public health practices ... v) generally to take all necessary action to attain the objective of the Organization."

Its power is already very significant, and the goal to turn the WHO into a global health dictatorship is virtually written into its constitution. Also, remember that the WHO removed the specificity of mass casualties from the definition of a pandemic, so now a pandemic can be just about any disease that occurs in multiple countries. Even obesity could theoretically qualify. So, the WHO could claim power over health care systems in any number of ways, given the chance.

Treaty Would Grant WHO Power to Mandate Vaccine Passports

While most of the world is more than ready to move on, the WHO seems unwilling to let go. A WHO official recently told the Ottawa Citizen that the COVID pandemic is still "far from over."⁴

The reason for this reluctance to declare the pandemic over is likely because the WHO hopes to gain the power to mandate vaccine passports and COVID jabs worldwide. It's already working on the creation of a global vaccine passport/digital identity program. As reported by WEBLYF:⁵

"Under the guise of a 'trust network,' another initiative called Vaccination Credential Initiative (VCI) is also gaining momentum.

Partnering with big tech companies, big corporations, and big universities, VCI describes itself as 'a voluntary coalition of public and private organizations committed to empowering individuals with access to verifiable clinical information including a trustworthy and verifiable copy of their vaccination records in digital or paper form using open, interoperable standards.'

VCI's SMART Health Cards, as reported by Off-Guardian, are already implemented by '25 states in America, plus Puerto Rico and DC, and have become the US's de-facto national passport.' As explained in the article:

'The US government, unlike many European countries, has not issued their own official vaccine passport, knowing such a move would rankle with the more Libertarian-leaning US

public, not to mention get tangled in the question of state vs federal law.

The SMART cards allow them to sidestep this issue. They are technically only implemented by each state individually via agreements with VCI, which is technically a private entity. However, since the SMART cards are indirectly funded by the US government, their implementation across every state makes them a national standard in all but name.”

United Tribes of New Zealand Denounce the WHO Treaty

As noted by NZDSOS,⁶ “Is this the way we want to live our lives? Constantly at the behest of shadowy individuals and corporations who monitor our every move and determine what we can and can’t do, down to buying food?”

In a formal letter of notification to the WHO and the Executive Board of the World Health Assembly, the government of Aotearoa Nu Tirenī in New Zealand strongly denounced this and any other treaty that challenges national sovereignty:⁷

“... you are thereby formally notified that the Wakaminenga Ma?origovernment of Aotearoa Nu Tirenī/New Zealand does not consent in any shape of form to any type of international pandemic treaty under the WHO or its assembly. Any such construct shall be void ab initio.

We, as United Tribes and Hereditary Chiefs, represent the only current legitimate government in New Zealand. The current NZ government represented by Jacinda Ardern is an illegitimate government because it is a corporation (SEC CIK #0000216105) listed on the US Security & Exchange Commission as Her Majesty the Queen in Right of New Zealand.^{8,9}

In accordance with the Clearfield Trust Doctrine, a corporation does not have any implied right to govern a sovereign people. We hereby register our vote of no confidence in the actions or authority of the corporation unlawfully posing as a government in our territory.

This unlawful Ardern government and its ministers stand charged by the Nga Tikanga Ma?ori Law Society and the Wakaminenga Maori Government of Nu Tirenī with genocide, war crimes, and crimes against humanity related to their wilful disregard for the suffering and loss of life resulting from their unlawful response to the engineered bioweapon known as COVID-19 and the unlawful forced administration of a poison to our people and forced medical experimentation.

Also charged with serious crimes related to a pandemic response, the WHO and Dr. Tedros Adhanom Ghebreyesus have no standing or authority to form any binding agreement related to a pandemic response, in any jurisdiction and we command that these attempts shall cease and desist immediately pending the outcome of these charges under Rome statutes 6, 7 and 8, filed in the international Criminal Court 6 December 2021 ...

You are hereby directed to cease and desist discussions or negotiations with the unlawful Arden Government, a NZ Corporation, known as Her Majesty Queen in Right of New Zealand. The Wakaminenga Maori Government of Aotearoa Nu Tirenī reserves the right to discuss/negotiate with any international partner(s) of its choice, including the World Council for Health (WCH)."

Treaty Would Create Global Censorship of Health Information

The treaty would also give the WHO the power to censor health information worldwide. On the European Council's web page discussing the pandemic treaty, under the headline "Restoring Trust in the International Health System," it states:¹⁰

"The agreement ... will set the foundation for better communication and information to citizens. Misinformation threatens public trust and risks undermining public health responses. To redeem citizen trust, concrete measures should be foreseen to improve the flow of reliable and accurate information as well as to tackle misinformation globally."

In other words, under this treaty, we can expect even greater censorship than what we've experienced so far. Tech companies have already proven where their allegiance lies, and it's not with the public.

Google, Facebook, Twitter, Instagram and others have deplatformed just about everyone who posts health information that runs counter to what the WHO is saying, real-world data and verifiable facts be damned. Financial platforms have also banned people for the same reason. Now imagine there being a binding international law that makes all that censorship mandatory.

Their Playbook Was Revealed in 2019

Officially, the Bill & Melinda Gates Foundation is the second largest funder of the WHO, second only to the U.S. government,¹¹ but the combined contributions from the Gates Foundation and GAVI made Gates the unofficial top sponsor of the WHO as of 2018.¹²

Gates has also been funding pandemic exercises, including Event 201,¹³ held October 18, 2019, which gained notoriety for its extraordinary accurate "predictions" of the COVID pandemic mere months before it was declared. Other co-sponsors included the World Economic Forum and Johns Hopkins Bloomberg School of Public Health.

However, earlier that year, February 14, 2019, Gates also funded the Nuclear Threat Initiative's (NTI) pandemic exercise for senior global leaders on international response to deliberate biological events, which took place in Munich, Germany.^{14,15}

NTI was founded to assess and reduce threats associated with the proliferation of nuclear weapons,¹⁶ but they've since expanded to include biological threats.¹⁷ Gates has also given grants to the NTI for vaccine development in relation to biological threats.¹⁸

While Event 201 featured a fictional coronavirus outbreak, the NTI exercise involved response to “deliberate, high consequence biological events.” In other words, a deliberate release of a genetically engineered bioweapon — in this case a pneumonic plague — for which there is no available treatment. This exercise scenario was the first of its kind. The video above features a summary of the four-phase exercise.

Curiously, in mid-November 2019, The Guardian, The New York Times,¹⁹ The Washington Post²⁰ and others reported that two people in China had in fact been diagnosed with pneumonic plague.²¹

In addition to the Bill & Melinda Gates Foundation, the NTI event was sponsored by the Wellcome Trust, the “philanthropic arm” of GlaxoSmithKline and an investor in Vaccitech, which owns the patents to AstraZeneca’s COVID jab.²² Both Gates and Wellcome are part of the technocratic globalist network that is pushing The Great Reset forward.

Another sponsor was Georgetown University,²³ which also curated the World Economic Forum’s library of COVID-19 treatments (primarily focused on antivirals and COVID gene transfer injections).²⁴

Curation was done by three Georgetown University professors and Rebecca Katz, director of the Georgetown Center for Global Health Science and Security.²⁵ Katz is also listed as an author on the NTI paper,²⁶ “A Spreading Plague: Lessons and Recommendations for Responding to a Deliberate Biological Event,” published June 2019, in which they review the conclusions reached from that February 2019 exercise.

‘A Spreading Plague’

Together, these two pandemic exercises — both of which were sponsored by Gates — form a playbook for how to set up a biological attack and then hide the truth from the world so that you can not only profit from it in the short term but also centralize power, permanently transfer wealth and change the social and financial order to your own liking in the process.

Not surprisingly, a number of Event 201 participants also partook in the NTI’s exercise,²⁷ and hold positions within technocratic institutions like Wellcome, the WHO and the World Economic Forum.

Event 201, in particular, focused not on finding remedies and saving lives, but how to control “misinformation.” A vast majority of that exercise centered around the creation of effective propaganda and censorship. Similarly, “A Spreading Plague” also includes the recommendation to enlist private companies as “assets” to carry out the globalists bidding:²⁸

“In 2019 and 2020, international organizations, including the WHO, UNODA [United Nations Office for Disarmament Affairs], and the World Economic Forum, should convene private sector companies to identify gaps and concrete next steps to strengthen the capability of companies to provide assets to assist with international response for deliberate biological attacks and other high-consequence biological events.”

In the NTI scenario — in which a fictional country called Carta is found to have engineered and released a biological weapon into the neighboring country of Vestia — we also see curious parallels to

current-day accusations by Russia, which claims biological weapons research was being conducted in the Ukraine, necessitating defensive action.

All in all, the NTI tabletop exercise only adds to the evidence pile that suggests the COVID pandemic was premeditated and preplanned for financial and geopolitical purposes. It was a power grab.

The pandemic treaty with the WHO is precisely what the World Economic Forum and its allies now need, as it will put the technocratic cabal firmly in charge of the biosecurity of the whole world, and empower them to implement the rest of The Great Reset agenda.

You can learn more about The Great Reset on the World Economic Forum's website^{29,30} and in Klaus Schwab's book, "COVID-19: The Great Reset"³¹ (but you might want to review the overwhelmingly negative comments on Amazon first).

As noted in a July 21, 2020, World Economic Forum article,³² the economic devastation caused by COVID-19 pandemic shutdowns "has the potential to hobble global prosperity for generations to come." The answer, according to the World Economic Forum, is for countries to make sure the economic system is "built back better."

Make no mistake, this catchy slogan is part and parcel of the Great Reset plan and cannot be separated from it, no matter how altruistic it may sound. Part of the "building back better" is to shift the financial system over to an all-digital centrally controlled currency system that is tied to a vaccine passport and/or digital identity system.

Together, they will form a pervasive system of social control, as desired behaviors can be incentivized and undesired ones discouraged through loss of various "privileges," including access to your own finances. Digital currency can even be programmed by the issuer so that it can only be used for certain types of purchases or expenses.

While it's going to be very difficult to stop this runaway train that is The Great Reset, part of our defense is to oppose and prevent the WHO's pandemic treaty from becoming reality, as we'll lose our national sovereignty if it does.
