

People who received “placebo” injections during covid vaccine trials will have same privileges as “fully” vaccinated, says UK government

Description

UK: It has come to our attention that some injection recipients who participated in clinical trials for the United Kingdom’s Wuhan coronavirus (Covid-19) “vaccines” reportedly received “placebos” instead of the real thing. And U.K. vaccines minister Nadhim Zahawi, a Muslim, says that these folks will be [afforded the same privileges as the “fully vaccinated”](#) when it comes to living and participating in the “new normal.” These fake-vaccinated will be granted an NHS Covid Pass, the U.K.’s version of a vaccine passport, just like those who rolled up their sleeves and got a permanent genetic modification, Zahawi told the media, adding that the scheme has an “important role to play in slowing the spread of the virus.”

Zahawi wants Brits who own businesses and operate large venues where people gather to adopt the domestic health certificate quickly in order to “keep their clients or their customers safe” from the latest “variants” of the Fauci Flu, which are magically emerging just as predicted.

The NHS Covid Pass functions as a smartphone app, showing proof of vaccination status, negative test results, or natural immunity to the Chinese Virus. Zahawi says that people who received fake Wuhan Flu shots will be logged in the app as “fully vaccinated,” even though they received some other chemical concoction than the one that globalist billionaires claim will keep everyone “safe” against the Chinese Disease.

Covid vaccine apartheid continues to spread across Great Britain with Zahawi at the helm

Strangely, some of these early trial participants who received placebos rather than actual Chinese Virus spike proteins or mRNA chemicals are “now being treated as if they are vax deniers with the texts they get from the NHS (*National Health Service*),” lamented Labour MP Rupa Huq to Zahawi about the inconsistencies with the current paradigm.

Because some authorities do not consider these people to be “fully vaccinated” since they received a

phony injection, many of them have been “grounded,” Huq says. One individual, an American who participated in the U.K.’s Trump Vaccine test program, has had to endure a type of vaccine “xenophobia” as he has been unable to access certain events that are exclusively available only to the injected.

“People think that they are being punished for doing the right thing,” Huq whined to Zahawi. “Will the minister rectify that?”

Zahawi responded by promising that everyone who participated in covid shot clinical trials, regardless of which injection they received, will be treated as “fully vaccinated” people when it comes to having access to the same events, venues, and businesses.

“We are working with other countries to make sure that that is recognized, but as far as the U.K. is concerned, they will be considered fully vaccinated, whether they have had the placebo or the vaccine,” Zahawi is quoted as saying.

Zahawi was previously against the idea of a digital Wuhan coronavirus (Covid-19) vaccine passport, having back in February called the idea of one “discriminatory.” Since that time, however, Zahawi has changed his tune and is now fully supportive of covid vaccine apartheid, which seems to be most popular in areas of the world where people with light skin are still the majority population.

“Nadhim Zahawi has no right to be an MP, let alone a minister, because he is foreign,” pointed out one commenter at *RT*.

“The English Bill of Rights says: ‘And I do declare that no foreign prince, person, prelate, state or potentate hath or ought to have any jurisdiction, power, superiority, pre-eminence or authority, ecclesiastical or spiritual within this realm. So help me God.’ I will ignore him and any decision he makes that I disagree with.”
