

Prepare Now For The Next Plandemic-A Few Facts About Monkeypox (VIDEO 10 min)

Description

A few quick facts about monkey pox-99% survivable, those who have been vaccinated for smallpox are less susceptible (smallpox vaccinations were stopped in 1980 because smallpox was declared "eradicated"), respiratory and mucus membranes are vectors of transmission, so EXPECT MORE UNNECESSARY MASK MANDATES. My guess is a monkey pox outbreak will cause all kinds of chaos, excitement and reinvigorated totalitarianism. My other guess is that monkey pox will not be the pestilence that will kill 1/3 of the world's population. We'll see.
