

## PROFESSOR DOLORES CAHILL SAYS MRNA VACCINES CAUSE INJURY AND DEATH

### Description

Australia, like the UK, US and Canada, is in the grip of manufactured hysteria over Covid-19. Our Federal and State governments are hyping up the infectiousness and dangers of new strains of the virus and the media is having a field day on cases and virus hotspots.

Lockdowns, border restrictions, mask wearing, social distancing and vaccinations are in. The cost of these measures, availability of alternative treatments are studiously ignored. Funny that!

The public health system is broken – Governments are the spreaders of misinformation and the media are the propaganda agents. The media won't ask about Covid-19 vaccines and their safety.

Dr Dolores Cahill, a renowned expert in immunology. Dr. Cahill has been an Expert in the EU for some 15 years in Future & Emerging technologies.
