

Psychic disintegration: Prepare for society to become MORE VIOLENT as insanity spreads

Description

The recent shooting at the Uvalde school in Texas was allowed to happen. [Police stood down and waited outside](#) for 40 minutes to an hour while the gunman was inside, murdering children (and a teacher) at will. This is now confirmed by [the Associated Press](#), no less.

This means that **law enforcement in Uvalde, Texas were negligent in the mass killings**. They didn't do their primary job: To protect the innocent, even if it means putting themselves in harm's way.

The typical excuse that they were waiting for SWAT to arrive doesn't fly. In an active shooter situation involving children, **you go in with what you have right now**, even if it's just one armed officer. You don't wait around while children are murdered.

You don't wait around, that is, unless you actually *want* the mass shootings to occur because you're an advocate of gun control.

So now we have to take a much closer look at the officers and department involved in all this, because there are a lot of pockets of Democrat-run gun control zealots in Texas, and this might be one of the operations they were willing to carry out on purpose, to *allow* the shooter to murder children so they could have the right narrative to push for the abolition of the Second Amendment.

How does an 18 year old who worked at Wendy's afford thousands of dollars in tactical gun gear?

Another question emerging all this surrounds the shooter's ability to acquire very expensive, high-end firearms such as Daniel Defense rifles, which are among the highest priced ARs that can be purchased by civilians. The shooter reportedly owned two of these rifles, plus 375 rounds of 5.56 ammo. When you throw in all the magazines, red dot sights, lights and other gear that typically goes with such a setup, you're looking at around \$5000 of investment in all this.

Image not found or type unknown

Where did a poor kid who works at Wendy's come up with \$5,000 to buy all this gear? He also reportedly drove a really nice car on top of that. **Was he on somebody's payroll?**

Four years of being MK-Ultra'd in the "mental health" system

It also appears that Ramos was brainwashed for four years in the local mental health system after being arrested in 2018 and charged with Conspiracy to Commit Murder. [According to KENS5.com](#), two teens were arrested in 2018 — one of them fits the profile Ramos — after they make explicit threats to replicate the Columbine, Colorado shootings during their senior year.

Ramos would have been 14 at the time. As KENS5.com reports:

In the press release, Uvalde Chief of Police Daniel Rodriguez said that a Morales Junior High School student, 14, and a former Morales student, 13, had specifically targeted numerous students in what they described as a plan to perform a "mass casualty event against the school."

[All News Pipeline explains more](#) in their story, "The Deep State Had 4 Years To Get This One Right And They Still Blew It With MKUltra Written All Over Uvalde, Texas Massacre – In 2018, A 'Uvalde Student Promised A 2022 School Slaughter'."

As this May 3rd of 2018 story at KENS5 pointed out, it appears they knew ALL about this kid's goals of carrying out a mass shooting, even pegging a future Uvalde, Texas school shooting to the year 2022! Giving the 'deep state' 4 full years to further train him and indoctrinate him, there's little doubt he was 'groomed' by 'professionals' to carry out his carnage.

About the author: Mike Adams (aka the “[Health Ranger](#)”) is a best selling author (#1 best selling science book on Amazon.com called “[Food Forensics](#)”), an environmental scientist, a patent holder for a cesium radioactive isotope elimination invention, a multiple award winner for outstanding journalism, a science news publisher and influential commentator on topics ranging from science and medicine to culture and politics. Follow his videos, podcasts, websites and science projects at the links below.

Mike Adams serves as the founding editor of NaturalNews.com and the lab science director of an internationally accredited (ISO 17025) analytical laboratory known as [CWC Labs](#). There, he was awarded a [Certificate of Excellence](#) for achieving extremely high accuracy in the analysis of toxic elements in unknown water samples using ICP-MS instrumentation. Adams is also highly proficient in running liquid chromatography, ion chromatography and mass spectrometry time-of-flight analytical instrumentation. He has also achieved numerous laboratory breakthroughs in the programming of automated liquid handling robots for sample preparation and external standards prep.

The U.S. patent office has [awarded Mike Adams patent NO. US 9526751 B2](#) for the invention of “[Cesium Eliminator](#),” a lifesaving invention that removes up to 95% of radioactive cesium from the human digestive tract. Adams has pledged to donate full patent licensing rights to any state or national

government that needs to manufacture the product to save human lives in the aftermath of a nuclear accident, disaster, act of war or act of terrorism. He has also stockpiled 10,000 kg of raw material to manufacture Cesium Eliminator in a Texas warehouse, and plans to donate the finished product to help save lives in Texas when the next nuclear event occurs. No independent scientist in the world has done more research on the removal of radioactive elements from the human digestive tract.

Adams is a *person of color* whose ancestors include Africans and American Indians. He is of [Native American heritage](#), which he credits as inspiring his “Health Ranger” passion for protecting life and nature against the destruction caused by chemicals, heavy metals and other forms of pollution.

Adams is the author of the world's first book that published ICP-MS heavy metals analysis results for foods, dietary supplements, pet food, spices and fast food. The book is entitled [Food Forensics](#) and is published by BenBella Books.

In his laboratory research, Adams has made numerous food safety breakthroughs such as revealing rice protein products imported from Asia to be [contaminated with toxic heavy metals like lead, cadmium and tungsten](#). Adams was the first food science researcher to document [high levels of tungsten in superfoods](#). He also discovered [over 11 ppm lead in imported mangosteen powder](#), and led an [industry-wide voluntary agreement](#) to limit heavy metals in rice protein products.

In addition to his lab work, Adams is also the (non-paid) executive director of the non-profit [Consumer Wellness Center](#) (CWC), an organization that redirects 100% of its donations receipts to grant programs that teach children and women how to grow their own food or vastly improve their nutrition. Through the non-profit CWC, Adams also launched [Nutrition Rescue](#), a program that donates essential vitamins to people in need. [Click here](#) to see some of the CWC success stories.

With a background in science and software technology, Adams is the original founder of [the email newsletter technology company known as Arial Software](#). Using his technical experience combined with his love for natural health, Adams developed and deployed the content management system currently driving NaturalNews.com. He also engineered the high-level statistical algorithms that power [SCIENCE.naturalnews.com](#), a massive research resource featuring over 10 million scientific studies.

Adams is well known for his incredibly popular [consumer activism video blowing the lid on fake blueberries](#) used throughout the food supply. He has also exposed [“strange fibers” found in Chicken McNuggets](#), [fake academic credentials](#) of so-called health “gurus,” dangerous [“detox” products imported as battery acid](#) and sold for oral consumption, [fake acai berry scams](#), the California [raw milk raids](#), the [vaccine research fraud](#) revealed by industry whistleblowers and many other topics.

Adams has also helped [defend the rights of home gardeners](#) and protect the [medical freedom rights of parents](#). Adams is widely recognized to have made a remarkable global impact on issues like GMOs, vaccines, nutrition therapies, human consciousness.

In addition to his activism, Adams is an accomplished musician who has released [over fifteen popular songs](#) covering a variety of activism topics.
