

Rebunked #039 | Pfizer Whistleblower| Brook Jackson

Description

My guest today is Brook Jackson, former Regional Director for the Ventavia Research Group, who was tasked with conducting the clinical trials for the Pfizer covid injections. During these trials, Brook witnessed the falsification of data, the unblinding of trial participants and inadequately trained vaccinators. She has been engaged in legal action against Pfizer and has been trying to spread the word about the dangers of the most egregious and negligent forced vaccination program in human history.
