

Report: Zelensky has stolen over \$400 Million in U.S. Taxpayer Aid

Description

Seymour Hersh published a article Thursday stating that United States Intelligence Officials know Ukrainian President Volodymyr Zelensky and his inner circle have stolen over 400 million dollars of United States taxpayer aid. Zelensky's inner circle used the money to purchase luxury cars and cheap Russian gas.

According to Hersh, United States officials became enraged when generals close to Zelensky started buying luxury cars after the start of the war, amidst the arrival of massive amounts of US aid money. Hersh wrote, "The ten he got rid of were brazenly bragging about the money they had driving around Kiev in their new Mercedes."

According to Hersh Ukrainian Generals are becoming fed up with Zelensky's greed, "The senior generals and government officials in Kiev were angry at what they saw as Zelensky's greed, so Burns told the Ukrainian president, because 'he was taking a larger share of the skim money than was going to the generals."

Most concerning is that Hersh reports that United States Intel Sources have told him that Zelensky "has been buying the fuel from Russia, the country with which it, and Washington, are at war, and the Ukrainian president and many in his entourage have been skimming untold millions from the American dollars earmarked for diesel fuel payments."

The same source told Hersh that the Biden Administration is to blame for the breakdown in Ukraine "The problem is Biden and his principal lieutenants—Blinken and Sullivan and their court of worshippers—who see those who criticize Zelensky as being pro-Putin. 'We are against evil. Ukraine will fight 'til the last military shell is gone, and still fight.' And here's Biden who is telling America that we're going to fight as long as it takes" Hersh wrote.

Hersh also wrote his sources said "there is "no strategy for ending the war" in Ukraine.

Hersh's sources say the failure in Ukraine can best be described as "total breakdown between the White House leadership and the intelligence community."
