

## RNA 'Vaccines' Will Control Human Brain Says CIA Neurobiology Expert

### Description

USA: Eminent immunologists and virologists have condemned the absurdity of giving a COVID-19 vaccine to healthy people who would already most likely have natural immunity. Now a CIA neurobiologist admits the real reason for the RNA jab is for widespread human control.

World Economic Forum CEO Klaus Schwab's Great Reset for a so-called sustainable global economy does not include 7.5 billion people who are now targeted for genocide by these lethal mRNA injections.
