So... it now comes to light that Rishi was part owner of Lava Mayfair Club (a private membership gym), which cost £44million a year owing almost £44million to creditors including £374,000 to HMRC!

Another of Mrs Sunak's ventures... M Wordsmith (an education business) in administration last year owing £16.5million after receiving a £1.3million loan from the Government's "Future Fund"!

OH IT GETS WORSE... Digme Fitness (which she owns 100% of) received up to £635,000 a week in subsidies before it then collapsed.
