

Something BIG is coming as new Bill Gates and Epstein facts emerge (VIDEO 14 min)

## Description

Is Bill Gates about to get thrown under the globalist bus? After years of being Epstein Teflon, it seems that some of the nonstick is wearing off. The Wall Street Journal reports that convicted sex offender Jeffrey Epstein was blackmailing Bill Gates due to an affair he'd had with a Russian bridge player. Gates has said many times that he only met Epstein a few times but every time he says that, a new connection between the two men is revealed. They met dozens of times, shared several meals together, flew together on Epstein's private jet, met together in France and shared most of the day together in September 2014 with other billionaires Epstein represented to many people that he had been working on behalf of the Bill & Melinda Gates Foundation. This new revelation about an affair smells....off. Is it a way for Gates to excuse away this familiar relationship? As in, "I had to hang out with him, he was blackmailing me." Gates' spokesperson told the WSJ that this was one of Epstein's ploys because he had "failed repeatedly to draw Mr. Gates beyond these matters." That also stinks. It implies that Gates knew more than he's let on all along and continued to hang out with Epstein anyway. Or is it proof that there is way more in this layer cake of the Gates-Epstein saga?
