

Steve Kirsch Testifies About Spike in Deaths Since Jabs Rolled out (VIDEO 2 min)

Description

"Follow the science" is a notion that was abandoned long ago by vaxx-nannies in government and corporate media. Why? Because the science tells us to question everything about Pandemic Panic Theater, particularly the push to vaccinate every man, woman, and child on earth.

Expert Steve Kirsch gave his opinions to Pennsylvania gubernatorial candidate and sitting state Senator Doug Mastriano, discussing the unprecedented 40% jump in deaths for people under the age of 64 since the jabs were rolled out. It's a video that needs to be shared far and wide before it's taken down, because it will be. Thankfully, we're posting it on freer speech platforms for posterity.
