

## Stew Peters Calls for DeSantis to Put an End to COVID Bioweapon and End Epic 'Kill Off'

### Description

**Stew Peters recently appeared on One America News(OAN) to talk about his informed opinion regarding the COVID 19 shots. Peters, who is getting increasingly more public attention on the topics of COVID-19, has hosted notable guests such as Karen Kingston, who frequently appears on the Stew Peters Platform. Kingston is a former employee of Pfizer who has spoken at length about her expert documentation that shows, as she claims and as National File has covered, the COVID shots are Bioweapons and not vaccines.**

Peters took the opportunity of his OAN appearance to send a message about all that research to the Republican Governor of Florida, Ron DeSantis, who appears to be the only elected official willing to have an open mind about the shot, with his recent round tables and calls for investigation into the medical community.

"If Governor DeSantis is watching your show I would just encourage you, Governor DeSantis, you have the authority with one signature to tell everybody in Florida- Hey, we're going to have a very Merry Christmas- we're going to stop this dead in its tracks. No more shots are allowed in this state. We're going to stop poisoning Floridians right now," Peters said, hoping to make a huge impact.

Peters dropped some other bombs on the host of OAN when he cited Kingston's extensive work, telling OAN audiences why he agrees with the research that shows the shot is a Bioweapon, "the patents for this injection say it right on the US Patent, right there in black and white. It says that this lipid nanoparticle is a weapon of biowarfare. So if you're waiting for world governments to admit that they've come to the conclusion that the patents are right, and that they have declared open acts of war against their people- They would be setting themselves up for huge accountability. They would take big losses. I mean, Nuremberg set a precedent for stuff like this. We're talking about crimes against humanity, the largest orchestrated kill-off in all of the world's history. We're talking about 7 million people every single day who are being injected with this," Peters said, adding an excellent point:

"I mean, you talk about Nazi Germany, you talk about the Holocaust 6 million people more people, a

million more people than that every single day are getting poisoned. This is a fake vaccine because the threshold for death just continues to be limitless. They don't stop this. No matter how many people are dropping dead and dying suddenly," he said.

Peters said, referring to the documentary, [Died Suddenly](#), which his team made, which has gotten over 14 million views since opening. The documentary received intense public interest, yet, medical and law enforcement agencies have shown absolutely no concern at all for what the public is worried about.

Peters included an urgent call to action for listeners: "We don't have time for Congressional investigations and Roundtable hearings and PowerPoint presentations and podcast, deliveries. We have to stop this shop right now."

He then went on, during the segment, to talk about the number of human lives that could be saved if the medical community would stop the shot. He also spoke about the hesitancy behind stopping the financial grift that COVID has become.

"This has never been about a respiratory virus. This is about an open Act of biowarfare by governments around the world and declared on their own people. It's really sick and it has to stop right now," Peters said in closing.

Peters has posted much of the documentation on Kingston's research which is available on her Substack as well.

On the bioweapon patent:

And – here's the date of the Bioweapon patent.

It's my belief that this is relevant. [pic.twitter.com/PLD6ODKPXe](https://pic.twitter.com/PLD6ODKPXe)

The segment got great reviews:

"AWESOME interview!! STEW PETERS is the Only True media source I listen too! Karen Kingston would nail all these criminals- SHE IS THE MOST COMPETENT, INFORMED, ACCOMPLISHED expert in exposing these terrorists. She has all the patents, and receipts and SHE KNOWS THE LAWS, Pharma, – anyone that hasn't listened to her is out of touch." one viewer posted in response to the segment.
