

The Best Ever Speech Exposing C-19 Vaccines

Description

USA: This woman, who has a PhD in cellular and molecular biology, just gave the most concise and on point testimonials about the C19 vaxx I have ever seen given.

Her speech was totally 100% unbiased. And smart, calm, cool, and full of amazing on-point facts.

We need to listen to people like this amazing woman!

Here's what one person wrote after watching:

"This was one of the best testimonials I have heard concerning the C19 vaccine. Straight to the point and right thru the gut!! She brought up the Tuskegee experiment which was done over a 40 Years period and was an "experiment" that was done on African Americans.?"

She brought up the fact that the CDC hid data that the MMR vaccine causes autism in children and that African American males have a higher risk of being #Vaxxed.

She brought up the fact that the CDC hid data that the MMR vaccine causes autism in children and that African American males have a higher risk of being #Vaxxed.

She just dropped a bomb on every single one of these "Representatives."
