

The Biden crime syndicate is one of the most evil secret societies in world history, guilty of child trafficking and high treason against America, FBI And DOJ whistleblowers allege

## Description

As a preface to today's column, it may be best to give a reminder that in the Old Testament there were two Prophets that authored books that chronicled the people of Israel after their return from exile in Babylon, although ten tribes short of where they were when they were taken captive. Tradition also holds Ezra was the author of First and Second Chronicles, and he was accompanied by Nehemiah and his book in the Old Testament of the same time period.

Not in the officially accepted record, but rather in the Apocrypha we also find two more books by the prophet Ezra. In the second of those two books he had a vision (chapters 11 (the vision) and 12 (the interpretation of it)) of an Eagle that presages the historical record of the Presidents of the United States. We have spoken of this a number of times before so we will not go over it again except to mention the point that the short Eagle Feather (President) after Trump is to have a shorter reign than Trump and the one following him to be shorter still. Trump qualifies as a short feather because he did not serve the second term that he was legally elected to fill (2 Esdras 11:12 "*And I beheld, and lo, there was **one set up, but shortly it appeared no more***"; and Biden will not finish this current term in order to be a feather shorter than Trump (2 Esdras 11:27 "*And the second was **sooner away than the first***"). That being said, let's see why I give this reminder.

President Donnie Trump has come up with some very funny quips; lines that humorously call out people and the evil they do. One such is when he said of the Biden crime syndicate family and their being caught in so many ways lately that "*What congressmen James Comer and Jim Jordan have revealed about **the Biden Crime Family would be Watergate times 10 if this news was revealed 10 years ago....Our Fake News Media is corrupt at a level never seen before!***" That is very true and you must live under a boulder to believe otherwise. Now we have James, Comer, House Oversight Committee Chair, asking the Department of Justice to NOT file charges against Hunter Biden until after Wednesday the 10<sup>th</sup> of May when he is scheduled to give a press conference showing the massive pay for play scheme that qualifies as outright Treason. This is not just about the occupier of our White

House but includes the whole of the Biden crime racket including the dementia ridden idiot pretending to be our President. The second video below covers some of this well.

*“More and more evidence is pointing towards Joe Biden,” Comer said. “Obviously, **Joe Biden was involved in all this despite the fact that he lied to the American people**, despite the fact that his press secretary continues to lie about it” the Liberty Beacon reported, and “We’re going to produce an additional five Biden family members, more countries, more LLCs, more bank accounts,” he explained. **“This thing is much bigger than anyone would have ever predicted, and it all points towards Joe Biden.”** The timing on this whole fiasco is critical as at the same time there are reports that Biden is preparing to pardon Hunter. Just how the timing will work out is unknown, and if Joe and other family crime syndicate members are also indicted then just how reliable would that pardon be? I do not see how he can pre-pardon either himself or other connected members before charges are even filed, but who knows what that evil creep will try. This next little bit should be very interesting.*

The American Bar Association said that there is a strong *“consensus among legal experts that a president cannot pardon someone for a state offense, as the Constitution notes “offenses against the United States.” In other words, “state law enforcement authorities could review any criminal allegations, without presidential intervention, to determine if they rise to the level of a state offense.”* And they also mention that *“One unsettled legal question is whether a president can pardon himself. The Constitution says a president cannot pardon “in cases of impeachment.”* So, if legal history also shows that *“legal record is also clear that a president can pardon for a presumptive crime, like what then-President Gerald Ford did with his predecessor Richard Nixon on Sept. 8, 1974”* then this could be a most fascinating next little bit until he is removed from office. Whether that is under chains, medical removal, death or whatever, it is appearing positive that his time remaining in office is running very short right now just as Ezra foretells if we understand him correctly.

The one concern I have is whether or not the charges against Hunter will be based on his Biden family criminal corruption or on that gun charge that seems to have been put in place as a possible escape avenue just for events like these that are now appearing. Remember that those gun accusations have been around for a while now without anything being done legally, so it appears that they were waiting in the wings to hide some other future crimes that needed something to lessen the blow to the crime syndicate with Hunters absence. Distraction is a well planned avenue of escape especially in politics, and when involved in massive criminal behavior it is essential to have an alibi or a patsy to take the fall. Do NOT fall for the transfer of criminal activities to the gun thing rather than money laundering, influence peddling, racketeering, Espionage and High Treason if it involves such a ludicrously reduced charge of leaving a gun in a garbage can; that is no more than a low class ruse.

Patriot United News said that the Inspector General report that millions from the \$110 million allocated to the DHS went to fund groups helping the criminal invaders over our southern border at the same time they are trying to put out the outrageous lie that the invaders numbers are way down. That is so patently absurd that it makes even the leftist bleeding hearts for the criminal invasion of this once great nation scream foul ball. The author of that article said *"I find it utterly amazing how far these people will go to help people that broke the law to come into the country and do not contribute to it in any way. **There is no bigger slap in the face of the American taxpayer than to see their money being spent on illegal immigrants**"* and I agree fully with that statement.

And at the same time that there are FBI whistle blowers coming out against the Biden's and the DOJ having documents showing that Biden is at the center of a massive criminal scheme, Andy Biggs (R-AZ) said that the DOJ and the FBI appear to be *"hopelessly corrupted politically" based on their actions or lack thereof....**There's just no reason to trust them,*** and that is the truth. As seen in one of the videos below, Ted Cruz demanded impeachment of Joe after all of those FBI whistleblowers brought out the documents proving the charges of criminal bribery. Although denials are blowing out of their faces as fast as they can, it appears that Joey Dementia sent Bill Burns to *"offer Vladimir Putin 20% of the Ukraine to end the war."*

*"A spokesunit for Joe Biden teamed up with one from the CIA on Friday, February 3, to deny that "CIA Director, William Burns, offered Russian President Vladimir Putin a fifth of Ukraine's territory to end the ongoing war." Patriot United News said that "last month, Burns traveled in secret to meet and brief Ukrainian President Volodymyr Zelensky in Kyiv," thanks to Washington Post....On Thursday, NZZ reported that "Burns is said to have submitted the plan in mid-January to put an end to the war."*

One of the reasons Biden is denying everything is because **both sides laughed in his face** and told Burns to stay out of it. The Germans seem to think it as a true report because Biden wanted to get out of a protracted war in Ukraine and focus attention on China, where they are also pushing for a major war. Perhaps Putin threatening to use nukes has him shaking in his boots? Or rather, has the CIA shaking in theirs? Yet does he think China will not use them to great effect? Insanity reigns in our government leadership offices.

All of this seems somewhat whimsical as we already know that so much of the money the Biden's are laundering has to do with the payments the Chinese are making to him and his crime syndicate to operate and control as they see fit. More literally, he (they) are **OWNED** by the Communist Chinese

and this also implies that his supervisor, the guy that remotely operates as the chief of the deep state running things in DC, the *Master of Mysteries* Barry Obama is also raking in the big bucks from China. Behind so much of the initial evidence is contained on Hunters laptop; that infamous and so dangerous a thing that all stops are out to destroy its real significance.

Former Deputy Director of the CIA Michael Morrell came forward to spill the beans on the Biden criminal cartel and Blinken said that a letter to him stated “We are examining that public statement signed by **51** former intelligence officials that falsely discredited a New York Post story regarding Hunter Biden’s laptop as supposed Russian disinformation” and that is to do what they can to hide the laptop from hell from the public and prove it is not relevant. Massive disinformation campaigns against it resulted but to no real avail as we already know that it is extremely important and holds just as much weight as the document dump that Julian Assange has reported. Maybe even more so as it is contemporary with our current situation.

America First Legal has released many Biden Veep documents showing the massive influence peddling and corruption and can be found at the [link imbedded HERE](#). [Reed D Rubenstein](#), the America First Legal Senior Counsel and Director of Oversight and Investigations said “*This latest release by the National Archives provides additional evidence suggesting that Vice President Biden and his family viewed the Office of the Vice President as an ATM. **Protected by the Secret Service, Hunter Biden traveled the world, apparently leveraging his father’s office to generate generational family wealth. The grift was cynical and brazen.***”

With the number of Biden’s involved in this crime family and making bookoo bucks, it should come as no surprise that the criminal gang has the same kind of protection as the Arkansas Mafia does with the Clintons. One (really, only one?) whistleblower disappeared after planning to release information proving the Biden family cartel and the massive corruption. An Israeli professor disappeared when he was released on bail waiting for extradition to the United States for arms trafficking charges. Gal Luft said “*The US, claiming I’m an arms dealer. It would be funny if it weren’t tragic....I’ve never been an arms dealer....**DOJ is trying to bury me to protect Joe, Jim & Hunter Biden....Shall I name names** ?*”. Yes sir, please feel free to do just that. Whether or not he was knocked off or just in hiding, we can be sure that it is not just the Biden’s who are worried about any testimony he may have, but the DOJ, CIA, FBI and other players in this crooked scheme against the United States area also involved. I will not provide proof here, so just go over previous columns where we did just that including the \$84 billion

to terrorist groups in the mid east via Afghanistan and the billions sent to them very recently by the Biden crime syndicate.

One Biden accuser even posted a message saying “*If something happens to me, **all roads lead to Joe Biden.***” Tara Reade who accused Biden of sexually abusing her when he was a Senator thinks the tendrils of the Democrat machine will make sure she does not have a chance to prove it.

There are so many other areas that need a close examination that it would be impossible to do so in one column. There will be books written about this if the planet does not destroy itself beforehand. But I will briefly mention a couple of other items just to be sure we realize how wide this sorry tale spreads.

A couple of weeks ago The Western Journal had a story on GOP Rep. Tim Burchett of Tennessee, a member of the House Oversight Committee, saying on Fox News that the mounting evidence that is finally being brought out that the MSM has been desperately trying to hide that this “*is just the very tip of the iceberg. This very brave IRS agent coming forward, I think will just start it. They’re talking about impeaching Biden*” and that even worse is that the **Biden criminal syndicate has been tied to Human Trafficking**. I think that just following what has been going on at our borders is proof positive of that charge. A full column needs to be done on just that and I have been gathering information to hopefully do so. “*If you delve into it deep enough, there’s **prostitution rings involved** in this. **Human trafficking has been rumored to be a part of some of these so-called companies that have allowed the Biden family to profit.** It is gross and it is disgusting about what has been allowed to go on,*” Burchett said. Many other stories show it is not just rumor but fact.

He then continues on about the Biden’s (read as Obama’s as well) “[China has] **so much invested in this White House now**, that their cover-up upon cover-ups will continue. But I can assure you that the American people understand what’s going on,” the Tennessean said. “*And I can assure you that [Oversight] Chairman Comer and Chairman Jordan are steering this in the right direction. As I stated before, **this is complete collusion with the communist Chinese. They bought and sold this White House.***” This is **High Treason** in the most basic of definitions. How long has it been since we hung traitors?

Back to the human trafficking angle, The Gateway Pundit story headline reads “**HHS Whistleblower Tara Lee Rodas Tells Congress **Biden Administration Is “Middleman” in Multi-Billion Dollar Migrant Child Trafficking Operation****”. Whether for the purpose of child sex trade, satanic rites of the wealthy secret societies and occult secret societies, slavery in workhouses, or other such evil the tens of thousands of unattached children are being fed through the supposedly legal HHS and various other groups including gangs both foreign and domestic, this white house and the Biden crime syndicate is right in the middle of it all. They are making the access to evil people to little children as easy as they can are reaping the profits from it amounting to the billions of dollars. Why are our borders wide open? Drugs, gangs, arms trafficking, child trafficking, foreign armies infiltrating for the resulting destruction of our nation, and so much more. **The Biden crime syndicate is one of the most evil secret societies in this world.** Yes, that is a simple phrase but very accurate.

It is not just creepy old Joes attention he gives children but that is in his very nature to do evil towards them as the clips showing the uneasy looks and twisting to get away from him has shown.

Closing with Ezra’s Eagle, let’s just look at what some interpret it to mean. There will be one more in

office after Biden and his rule will be shorter still and yet another says that Biden is the last as the next two short feathers will not be able to do so as the three eagle heads will take it upon themselves to rule. Confusion reigns in the interpretation business so figure it out for yourselves. Just who those three eagle heads are is up for discussion as we have pointed out a few times before, but just be aware of what happens in the next year or two as it may not follow what is expected. Prophecy is always easy to see afterwards while beforehand it is unknown and we are only guessing. But the fact is very clear, things are getting **interesting** and our future is up for grabs it seems. *May you live in interesting times* is a curse, not a blessing. Perhaps the passing of the solar eclipse over the central US making an 'X' when viewed with the September 2017 one seven years apart really is portentous; beware of 2024.
