

The Biden regime has officially become a terrorist organization, throws in with BLM that terrorizes America and targets White people with race-based hatred and violence

## Description

USA: Americans concerned about the Democratic left's encroaching Marxism throughout our society will be alarmed to discover that the encroachment has already, officially, reached the height of our government: The Biden regime.

As reported exclusively by Human Events magazine, a leaked State Department memo declares that the Stalinist Black Lives Matter movement has been officially endorsed by the Biden White House, and the endorsement will become visible to our enemies and friends alike through the display of the BLM flag and other visible support May 25.

The memo notes that all U.S. "Diplomatic and Consular posts" are being 'encouraged' to show their support for BLM, whose founders, by the way, have stated plainly that they are "trained Marxists," to mark the one-year anniversary of the death of George Floyd, the drug-dealing criminal who has been lionized by the left after being unfortunate enough to have died at the hands of Minneapolis police.

"The Department supports the use of the term 'Black Lives Matter' in messaging content, speeches, and other diplomatic engagements with foreign audiences to advance racial equity and access to justice on May 25 and beyond. We encourage posts to focus on the need to eliminate systemic racism and its continued impact," reads the memo in part, according to Human Events.

The magazine notes further:

*The memo, which is in part a woke statement on social justice, part an apology for U.S. actions, and part an endorsement of all BLM materials, expressly encourages the display of the BLM flag or banner at U.S. facilities (except on the actual flagpole that holds the American flag).*

It reads, in part: “This cable constitutes a blanket written authorization for calendar year 2021 from the Under Secretary for Management (M) to display the BLM flag on the external-facing flagpole to any Chiefs of Mission who determine such a display is appropriate in light of local conditions.”

This determination comes despite the well-documented acts of rioting, looting and violence throughout much of 2020 following Floyd’s death, nearly all of which was either endorsed by BLM leaders or saw BLM adherents taking part. Also, the memo comes as The New York Times reported that the organization’s popularity is declining among American voters big time.

None of that matters to Biden’s left-wing handlers, of course; because they can, they have decided to push the limits of tolerance and good taste in order to openly align with a blatantly racist domestic terrorist organization and to make it ‘official’ by essentially requiring our consulates and embassies to show allegiance to Marxism.

“May 25 marks the one-year commemoration of George Floyd’s murder. For 9 minutes and 29 seconds, the world saw firsthand how police officers brutally took the life of an unarmed Black man in the United States. These viral images ignited national and global Black Lives Matter (BLM) protests and demonstrations,” the memo notes.

“This tragedy joined a long line of Black men and women who have suffered at the hands of police brutality. These national and global protests sparked a movement to confront systems perpetuating deep-seated inequities rooted in colonialism and the oppression of racial, tribal, ethnic, and other minority communities. Mr. Floyd’s murder prompted an international outcry to seek racial justice and equity by dismantling systemic racism and eradicating police brutality affecting communities of color, most acutely, people of African descent,” it adds.

The guidance on showing support includes:

— “Any BLM-related displays within the interior of the mission, or exterior displays other than the display of a BLM flag on the flagpole (e.g., a banner over the door, BLM spotlights, projections, etc.) are at the Chief of Mission’s discretion;”

— “Chiefs of Mission may decide to hang BLM flags, as appropriate and depending on local context;”

— “Posts are strongly encouraged to make full use of Department and Interagency tools and resources to promote policy objectives to advance racial equity and support for underserved communities throughout the year.”

Our country is gone, folks. There is only one thing left for patriots to do: Pick some turf and start over again, taking care to implement changes that will prevent a repeat of the past 70 years.
