

The Covid Deep State: Threats, Vaccine Injuries and Deaths Abound No Compensation. No Justice

Description

USA: The well-reputed online magazine Nature.com published on May 24, 2021, a research-report finding that people who had a corona infection have also developed antibodies and will most likely be immune against the disease for the rest of their lives. Let's hope it will not be "fact-checked" out.

Censuring the truth. What a pity! What can now be called "Covid Deep State" – the same "superior and super-rich elite" buys practically all the mainstream media – television, radio and print – in basically all the 193 UN member countries. Looks like there is no escape. That's what they would like. That's why the entire world had to be locked down for the virus at once on or around the 15th of March 2020.

It is an epidemiological impossibility that the entire world at once is affected by a virus, let alone by what WHO then dared to call a "pandemic". However, the truth always seeps through, sooner or later. Just think of **Leonard Cohen**'s extraordinary anthem "*There is a crack in everything, that's how the light gets in*". The truth will always sooner or later penetrate the darkness.

Right now, it looks like the time is coming when the huge heavy vessel that carries this somber elite's lies and deceits straight ahead, ignoring all objections and arguments, and as if there was no obstacle to hold it back – as money buys everything – this vessel is slowly but gradually and it seems unstopably turning. People are awaking around the globe.

Independent scientists, virologists, medical doctors with integrity and the warmth of true humanity have abandoned the matrix and taken the Red Pill. This is in reference to the 1999 movie, "The Matrix" – where taking the red pill means the willingness to learn a potentially unsettling or life-changing truth, or remaining in contented dark ignorance with the blue pill. Amazingly, the movie has not yet been banned and "fact-checked" off the screens and internet.

And so, the study referred to by Nature.com of acquired immunity – probably for life – makes vaccination not only redundant, but outright dangerous. The text is also available in German. The study has revealed that after 11 months of infection antibodies are still present.

Image not found or type unknown

Dr, Mike Yeadon, former Vice President Pfizer and Chief of Science at

Pfizer, a top virologist, has studied SARS cases in 2019 from the SARS outbreak in China of 2002 / 2003. He found still antibodies in all of his examined former SARS-infected people. He concludes that SARS, alias covid antibodies are therefore, effective for at least 17 years and following his experience he assumes for life. See [here](#).

This actually means that all those who have had the covid infection have developed various degrees of antibodies which make vaccination not only unnecessary, but dangerous, as the vaccine, especially the mRNA-type “emergency gene therapy” – never approved by CDC / DFA as a vaccine – could affect and destroy a person’s naturally acquired immune system, not only against covid, but against a wide range of diseases. Therefore, coercing people with natural antibodies into taking the jab is a crime. So-called mRNA “scientists” know exactly what they are doing.

Dr. Mike Yeadon goes a step further, claiming that the mRNA-jab contains a spike protein, called syncytin-1, vital for the formation of human placenta in women. If the “vaccine” – or rather the CDC-called emergency gene therapy – works, Yeadon says, *“we form an immune response against the spike protein, then we are also training the female body to attack syncytin-1 which could lead to infertility of women of an unspecified duration.”* In other words, likely for the rest of their child-bearing life.

On 1 December 2020, Dr. Yeadon and German **Dr. Wolfgang Wodarg** wrote to the European Medicines Agency (EMA), urging them to carry out vaccine trials, including for their effect on women’s infertility. They never received an answer.

In an article published by Global Research on 22 April, here, **Nathaniel Linderman** referred to a study by Dr. Bart Classen, claiming that mRNA Pfizer jabs – allow me to repeat: Not vaccines but emergency gene-therapies – caused different kinds of neurodegenerative diseases, including the risk of Prion disease, see [this](#).

Dr. Bart Classen’s research indicates that the Pfizer *untested mRNA vaccine*, creates new proteins that can actually integrate into the human genome, as reported by the National Library of Medicine. In other words, degenerative brain conditions may appear at any time in your life after receiving the vaccine.

The Pfizer vaccine is, however, not the only type of untested inoculation that causes neurodegenerative defects, many of them deadly and most of them irreversible or only partially curable. There are Moderna, J&J, AstraZeneca and more.

Founder **Robert Kennedy Jr.** of Children’s Health Defense – *The*

– reports on 2 June 2021 about a 38-year-old woman, who nearly died after a J&J covid-vaccine. She suffered various organ failures. The woman was healthy until she received the J&J untested covid “vaccine”. Within a week, she started experiencing headaches, abdominal pain and nausea and was eventually diagnosed with severe blood clots that caused most of her vital organs to fail. Only intense medical treatment, 33 days of hospitalization, of which 22 days of intensive care, saved her life – and left her with a medical bill of over a US\$ 1 million – for which nobody admits responsibility.

God only knows how many unreported cases there are – some very likely even worse and many deaths. And more injuries and death may be expected by vaccinated people as time goes on – see [Dr. Yeadon's suspicion](#) that we may be set up for mass depopulation.

The young lady, who received the untested J&J covid “vaccine”, is now in occupational and physical therapy. She has to learn basic motor skills, including writing and using a fork, and she had to relearn how to walk. However, she will never again be the same as before the disastrous jab.

And there is as of yet no relief for her one-million-dollar medical bills.

Since the government shields vaccine makers from law suits under the National Childhood Vaccine Injury Act of 1986 which effectively granted vaccine manufacturers freedom from civil tort liability. Instead, several years later, the US government established the Countermeasures Injury Compensation Program (CICO), which turns down most of the applicants, i.e., fewer than one in ten injured people receive compensation. And this is in the US. In other countries such compensation does not exist, unless the government assumes the risks – which is not (yet) formalized in most countries, if in any.

For example, in Europe, no EU country has declared assuming the covid-vaxx injury compensation risk. When not too long ago a journalist asked the Swiss Health Minister, what about compensation for vaccination injuries? – He was taken aback by the question and stuttered something to the effect, “We haven’t thought of it yet, but there are unlikely going to be injuries.”

In the meantime, by the end of May 2021, the EU recorded more than 12,000 deaths related to covid vaccines and more than 100,000 serious injuries – and these figures may be vastly underreported. Yet, no official compensation scheme has been established. And governments who follow the Covid Deep State orders on fulfilling quotas of vaccinated people, are quiet and ignore the topic.

No wonder, the “Covid Cabal”, those ultra-rich who claim to call the shots on covid and its eugenist agenda are getting nervous. With such messages of immediate vaxx-injuries and predictions of mass depopulation within the next 3 to 4 years, people may wake up – and start resisting.

In the heat of the vaxx-haste and people becoming increasingly alert, representatives of the Deep Dark Covid State, the instigators of **the** crime of recent human history, have to take recourse to threats. The Editor in Chief of the reputed *Natur.com* online research paper claimed having recently received two anonymous calls from people who pretended to work for the US government – is it true? – saying that they are themselves not taking the vaccination, but there was a quota that on average 70% of the world population had to be vaccinated by 2022.

See this [testimonial video \(28 May 2021\) from Natural News](#): the Vaccine Deep State issues aDIRECT THREAT to Natural News – “*you follow our orders or else...*”.

Something to think about – but always with the premise – they will not win. Our human spirit and will power to resist is much stronger than their Luciferian plan. We must wake up in solidarity – and we will, that’s why they are so desperate to “vaccinate” as many people as possible – 70% of the world population is their target – **as fast as possible**, before we wake up. Once you are vaccinated its too late to change. The effects maybe irreversible.

But we are already awake – right?

As of 2 June 2021, according to WHO, a worldwide total of 1 581 509 628 have been vaccinated. See [this](#). Out of an estimated 7.8 billion (2020), that’s about 20%. There is a long way to go to 70%, notwithstanding the hundreds of millions, if not in the billions, who outright refuse the jab. And if 70% is really their target, then coercion might have just begun.

But not to worry.

People are just about to wake up, as they start realizing that there is a much more sinister agenda behind the forced and coerced vaccination – and especially as their injury and death rates increasingly surface and are becoming known. Our human mind and collective will-power is much stronger than their diabolical darkness – no matter the money they put behind their sinister objective.
