

The Dirty Money & Foreign Forces Behind The Zionist Frauds Called The Azov Battalion

Description

BELARUS: With the recent incident regarding Ryanair in Belarus with Roman Protasevich, the Azov Battalion in Ukraine has been back in the news and the usual cringe worthy suspects call them Nazis but that couldn't be further from the truth. It is a Zionist backed organization that exists largely thanks to Jewish money and weapons both domestically and from abroad.

The most notable financier of the Azov Battalion is the Jewish Ukrainian-"Israeli" oligarch [Ihor Kolomoyskyi](#), one of Ukraine's most corrupt oligarchs, which for Ukraine is saying a lot.

Ihor Kolomoyskyi has had his tentacles all over the country's economy, having founded PrivatBank and making a fortune in financial services, ferroalloys, oil and gas, metals, petroleum, and mass media. Before coming to power Ukrainian President Volodymyr Zelensky was an actor for the show "Servant of the People" and it was aired on a 1+1 channel, owned by the 1+1 media group that Kolomoyskyi owns a 70% stake in.

Keeping all of this in mind as well, Kolomoyskyi's business empire wasn't just in Ukraine or "Israel," he had a lot of corrupt business dealings in Romania and in Russia. The Azov Battalion's most notable financier is a Jewish man who has done a significant amount of business with Russia.

When Ihor Kolomoyskyi running PrivatBank, one of the biggest financial scandals in the 21st century occurred with a 5.5 billion theft of funds from that big Ukrainian bank.

The former Chairwoman of Ukraine's National Bank Valeria Hontareva detailed how "Large-scale coordinated fraudulent actions of the bank shareholders and management caused a loss to the state of at least \$5.5 billion," Hontareva said in remarks in March 2018. "This is 33 percent of the population's deposits ... [and] 40 percent of our country's monetary base."

The \$5.5 billion has largely been traced and the way Kolomoyskyi and his corrupt inner circle were able to steal so much money was via Cyprus through a subsidiary of the Bank.

A big reason that this industrial scale theft of the Ukrainian people's money was able to take place was

because the National Bank of Ukraine treated the Cyprus branch of PrivatBank the same as one of the domestic branches.

It started its operations in Cyprus in the 1990s and was the only bank in Ukraine to be allowed to open an overseas branch and Ukrainian officials did nothing to stop the money from leaving the country.

These billions of dollars were pumped through PrivatBank accounts held in offshore companies in Cyprus that were transferred there via SWIFT, the Society for Worldwide Interbank Financial Telecommunication.

In 8 years before the bank was nationalized, in the Cyprus branch of PrivatBank, \$8 billion was laundered through Grizal Enterprises, \$14.9 billion through Hangli International Holdings, and \$12 billion through Claesholm Marketing registered in the British Virgin Islands. \$11.2 billion were laundered through Divot Enterprises, registered in St. Kitts and Nevis, and \$6.5 billion through Pointex Sale in Britain. So when the \$5.5 billion theft from PrivatBank in Ukraine, stealing the savings of millions of Ukrainians occurred, the crooked thieves thought they could get away with it again.

The Cyprus branch of PrivatBank also laundered a lot of money through Latvia, another country where PrivatBank had a branch in and where Kolomoyskyi had a stake in the ownership of.

In 2015, Moldovan lenders named the Bank as one of the subsidiaries involved in the \$1 billion bank fraud that left that country economically devastated.

PrivatBank in Latvia also laundered \$2 billion in Russian dirty money over a 4 year period as well. More business with the Russians by the Azov Battalion's most notable financier supported by the Latvian state who loves to talk all the time about this Russian threat, but boy do they love that Russian dirty money in Latvia's banks.

Adding onto that PrivatBank got money from none other than the International Monetary Fund (IMF) and it helped further enrich Ihor Kolomoysyi even further.

The PrivatBank scandal led to the nationalization of the Bank and made an already dire financial situation in Ukraine even worse than it already was.

The Azov Battalion is also funded by the oligarch Serhiy Taruta who made his fortune in Ukraine's manufacturing industry, running the Industrial Union of Donbas which owns or directs stalks in dozens of industrial companies in Ukraine, Hungary, and Poland. Taruta is an oligarch allied to the oligarch Yulia Tymoshenko, who due to being in the good graces of the American regime escaped the conviction of money laundering, corruption, and fraud that her business partner, former Prime Minister Pavlo Lazarenko was convicted of. Both were guilty of corruption in reality.

In now deleted video footage, the Azov Battalion openly showed to Ukrainians the "Israeli" weaponry they were getting from the great grandchildren of those who killed millions of Ukrainians in the [Holodomor](#). (Red Pilled Reality does not endorse the cringeworthy title of the video that shows the Azov Battalion showing off their "Israeli" weaponry).

Given Azov's open bragging of the "Israeli" support they get, it should come as no surprise that they have been [implicated](#) in war crimes such as rape, torture, and targeting civilians. Even more than that it further goes to show why the Azov Battalion is so eager to support the Ukrainian schismatics and to try

to eliminate any presence of the canonical Ukrainian Orthodox Church under the Moscow jurisdiction, as the [Russian Orthodox Church](#), unlike Putin, has been a major thorn in the side of the Jewish cabal.

Only in clown world can a group who is financed by Jewish oligarchs and armed by "Israel" can they be accused of being both Nazis and based nationalists who are out to do the right thing. The Azov Battalion are nothing but scum who spit on the memory of the millions of their people killed in the Jewish perpetrated Holodomor.
