

## The Dugina Assassination and the Zio-Anglo-American Empire's Descent Into Hell

### Description

*Dad, I feel like a warrior, I feel like a hero, I want to be like this, I don't want any other destiny, I want to be with my people, with my country, I want to be on the side of the forces of light, this is the most important thing.*

*There are two main Civilizational rivals in this world: the land-based Eurasian countries (historically within the “great space” of the Russian Empire and former Soviet Union) and sea-based America (the undisputed champion of liberal Anglo-Saxon civilization); while the former represents everything which is Traditional and yet also Progressive, pre-modern and futurist, multipolar and just – the latter represents everything which is anti-Traditional, modern, Liberal, Capitalist, unipolar, exploitative, backward and decadent.*

*The entire historical record can be summed up as a giant geopolitical struggle and all major wars of international scope have always and forever been waged over conflicting geopolitical-cultural values – which is to say between telluric (land-based) powers and thalassocratic (sea-based) powers – and not over race, religion or creed, all of which have only served as “covers” or false fronts for the actual geopolitical/cultural goals of the combatants in order to effectively rouse the emotions of the docile masses and thus mobilize them for war.*

*The Jews who started this war—Nuland, Blinken, Zelensky, Kholomoisky—killed Dugina no matter who pulled the trigger.*

The **desperation** of the Zio-Anglo-American New World Order has skyrocketed in the wake of the most recent military, economic, and political events unfolding in the Russian-Ukrainian War.

**Despite the best attempts of Western Mainstream Media to suggest otherwise, this war is going exactly according to the Putin-Shoigu plan and has been since the February 24th invasion.** On the military front, the Russian victories at Popasnaya and Mariupol have led to fall of the Lisichansk-

Severodonetsk salient. The Allied Forces of Russia, the DPR and LPR militias, the Wagner Group, and Ramzan Kadyrov's Chechens, continue to chip away at Ukrainian positions in Donetsk City and Soledar-Bakhmut. When this latter salient falls, the Sloviansk-Kramatorsk salient will follow, even as the Russians begin a move in Kharkiv and advance in the south to within 15-20 kilometers of Nikolaiv from their vantage point in Kherson. The fall of Odessa to the Russians will be assured after Nikolaiv is taken, giving Moscow strategic control over the entire Black Sea coast.

The Jewish Drag Queen Comedian in Kiev will then be given an ultimatum to settle. If that ultimatum is rejected, Zelensky, Biden, Stoltenberg, Blinken, Nuland, Sherman, Obama, Clinton, Soros and his *Open Society Foundation*, Klaus Schwab and the *World Economic Forum*, the *Atlantic Council*, the EU heads of state, and American Mainstream Media and Social Media Conglomerates will awaken one morning or night to a Russian occupation of all of Ukraine including Kiev and Lviv. The **LGBTQ flag will have to be lowered**, as it was in Kabul when the Afghan National Army and their Zio-Con backers had to get out of Dodge.

*South Front*, Alexander Mercouris and Alex Christoforou of *The Duran*, and the *Military Summary Channel on Telegram* will continue to convey the incessant, grinding character of the Russian military advance, which will reach a point where the undeniable will have arrived at the doorstep of those who began this war and whose chosen media acolytes and sycophants have been promoting the Victoria Nuland-Robert Kagan *Institute for the Study of War* script since the illegal Western *coup d'état* in Kiev in February of 2014.

**The political and economic fronts are no better for the Zio-Anglo-American New World Order than the military one.** Tens of billions of dollars in military aid to Kiev are having no ultimate impact on the inevitable outcome of the war. CBS News was forced to retract a credible report that only 30% of such aid is actually reaching the front lines. *Amnesty International* tellingly apologized for its own credible report on Ukrainian war crimes in the Donbass, even as it stood by the accuracy of what it said in classic Orwellian Doublespeak.

The economic war of attrition against Putin has clearly backfired for both the United States and the EU, as the advocates of this moronic, suicidal methodology have clearly advanced the obvious development of **the Eurasian strategy of an increasingly prophetic Alexander Dugin**, a strategy which has resulted in a reestablishment of the Russian-Chinese economic, political, and military alliance to the distress of Henry Kissinger in his final days.

Add Iran as the focal point and asset of this Eurasian juggernaut in the Middle East, and only a fool would fail to see that the *American Century* is long past with postmortems soon to be the subject of historical and political analysis. My interview with the *Tehran Times* on Biden's recent Tragi-Comedic trip to Tel Aviv, Jerusalem, and Riyadh will be only a small portion of the millions of pages soon to be penned.

**The list of such fools is seemingly endless.** The first political fatalities are Draghi in Italy and Boris Johnson in Britain. Scholz, Macron, and Biden will fall as inexorably as Odessa and Kharkiv. Scholz and his *GloboHomo* Green Party have bet their political survivability in Germany on the forcible deindustrialization of Germany and ongoing subservience to NATO and the post-World War II economic and political order run by the United States.

Mike Whitney demonstrates the myopia of this strategy for the *Unz Review* and Lew Rockwell in "**The Crisis in Ukraine is Not About Ukraine: It's About Germany.**" As average Germans experience

a chilly winter awakening to what their simian leadership has done to them, the ramifications for the future of Germany and its relationship to the post-war Western order may transcend any questions about Scholz. **What happens if a German Nationalist movement emerges that dumps NATO and American governance for the Eurasian Continental Express?** One can bet that Ursula von der Leyen would join Scholz in the ranks of the permanently disemployed, among others. Watch and wait.

**It is only a question of time.** Ramon Marks' essay for *The National Interest* entitled, "**No Matter Who Wins Ukraine, America Has Already Lost**" is to the point with only one exception. Marks hedges his bets on what the military outcome of the war will be, for whatever reason. Make no mistake about it, a Russian victory is on the distinctly visible horizon.

In contemporary Geo-Political developments, the two most critical in recent times are the apparent developing reapproachment of Assad and Erdogan over Syria which would finish the Zio-Con/Jihadic intervention in that country, and the Chinese President's visit to Riyadh. **If Saudi Arabia joins BRICS as it reportedly is interested in, the American Petrodollar as the global reserve currency is toast.** If that happens, kiss the *Zio-Anglo-American-New World Order* goodbye.

I say "*Good Riddance.*" **May the Old American Republic arise from the dead. Perhaps the most incredible gift of the life and death of Darya Dugina will prove to be a renaissance of the Constitution of the United States within American borders along with a return to Old American Right respect for the rights of citizens elsewhere. George Washington defeats Zelensky. I like**

that futuristic headline.

My remarks to the **Tasnim News Agency** and the **Fars News Agency** about the pivotal Zionist role in the Trump-Pompeo criminal assassination of General Soleimani of Iran in early 2020 seem now like ancient history albeit painfully relevant ongoingly. The current level of desperation and criminality for the *Zio-Anglo-American-New World Order* has now culminated horrific assassination of Darya Dugina witnessed by her own father, Alexander Dugin, after the Tradition Cultural Festival.

In regard to this heinous crime, the following can be observed: **First**, the controlled media of the *Zio-Anglo-American-New World Order* has reached new lows in its palpable lies about the killing and the credibility of the Russian FSB in regard to who is to blame.

On August 21st, the *UK Guardian* declared that "**Russian hawks without evidence blame Kyiv for death of Darya Dugina and demand Kremlin response.**" Without evidence? Evaluate what we are told by **South Front** about the evidence. One thing is absolutely clear: None of the Western

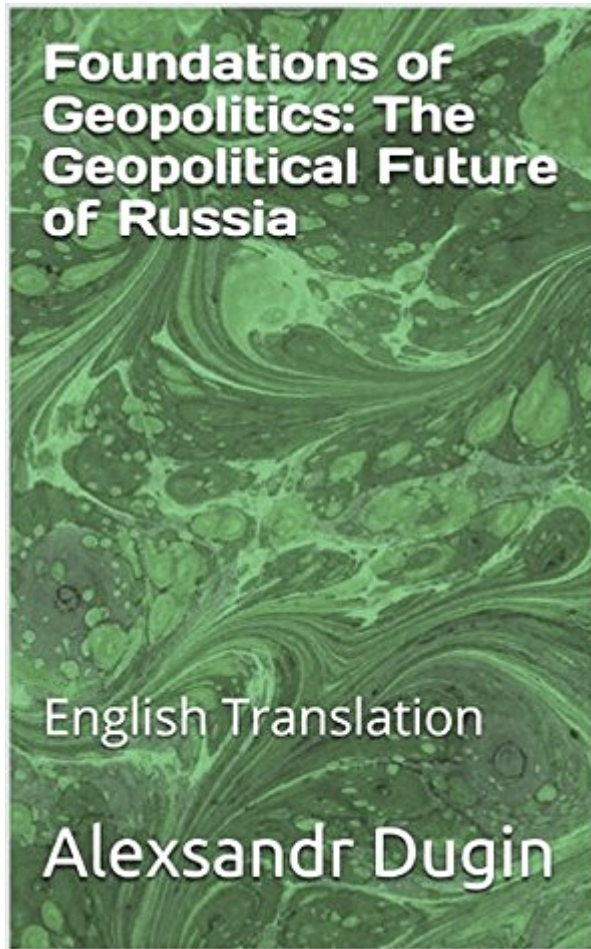

governments who claim to be governed by the international rules of law will abide by an extradition of Natalia Vovk to face trial in Moscow.

**Second**, Putin and Shoigu will not be goaded by Zelensky and his Criminal Cabal in Kiev, Washington, Tel Aviv, London, Berlin, and Brussels in regard to their tactics in the Special Military Operation launched on February 24th according to Lyuba Lulko of Pravda on August 23rd in “**Putin will not strike Kyiv. He will strangle Ukraine slowly instead.**”

Why? The Russia President and his General Staff know that they are currently winning the conflict at every level. Zelensky’s desperation in bombing the Zaporhizhia Nuclear Power Plant (NPP) and the murder of Dugina in Moscow will fail to provoke Putin and Shoigu into actions which would provide NATO and Biden a convenient but transparent excuse to intervene militarily in Ukraine and in Western Poland. This latter lunacy is Zelensky’s last card to play. He may not even have that card left if former Ukrainian MP Ilya Kiva is correct. **Pravda on August 25th reports Kiva as saying that Zelensky’s “toxicity” has escalated to a point where the West is in the process of dumping the latter for an alternative.** Kiva names names. Watch and wait.

**Third**, a generally uninformed public in Western Europe and the United States will now have the opportunity to evaluate the ideas and persona of Alexander Dugin for themselves, as the murder of Darya on August 20th brings her father and his writings into wider public circulation. Military and economic blowback for the West are now joined by political blowback and the issue of freedom of speech and the free exchange of ideas in the public marketplace of the Arena of Ideas.

I have been pursuing the distribution of the Arena of Ideas in Alt-Media since September of 2001 as a broadcaster, foreign TV guest, and print journalist. On **August 24th** on the *Republic Broadcasting Network* as a guest, I promised their listeners a copy of this brief dissertation, chiefly to have immediate access to what may be read about Mr. Dugin in the English language through a simple Internet search and a subsequent personal resolution to read the man’s writing for itself and to evaluate him and his ideological perspective on its own merits. That is what the “*Free World*” is supposedly and allegedly all about. If one has jettisoned the ***Mythologies of the American Empire***, it is concluded that this is not what the *Zio-Anglo-American-New World Order* is about whatsoever. The immortal words of the late Frederick Tobin continue to reverberate in the wake of August 20th: “*In the Western World, we have the freedom to go shopping.*”

These are but the beginning of a long journey for anyone interested in learning more. Begin with the Alexander Dugin **biographical overview** at RT. Continue with Mr. Dugin's listings for **Charles Bausman's *Russia Insider***. Compare and contrast the perspective of *The Occidental Observer* in "**Dugin Viewed from the Right**" with Chace A. Nelson's "**Putin's Playbook: #Reviewing Dugin's Foundations of Geopolitics**" for *The Strategy Bridge*. Follow **Geopolitika in English**, especially in reading **THE IDEOLOGICAL PLATFORM OF THE EURASIAN MOVEMENT**. And follow the dictums of Francis Bacon and **Erasmus**: "*Read not to believe and take for granted, nor to contradict and confute, but to weigh and consider*" and "*To The Sources!*"

You can't do that at CNN. . . .
