

The Great COVID-19 Vaccine Bribe

Description

Many readers of this Substack have doubtless wondered why their “health care providers”—i.e., doctors, repeatedly exhorted them to get the COVID-19 vaccines and boosters. In my extended social circle, I heard many reports of doctors being downright pushy about it—as though getting the COVID-19 vaccine was the single most pressing matter of medicine and health.

Even patients who'd recently recovered from COVID-19 were urged by their doctors to get the shots, as were patients who had bad reactions to the first injection.

For a long time, Dr. McCullough and I wondered if these doctors really were that brainwashed, or was there some other explanation for their zeal?

A few days ago, fellow Substack author, Tessa Lena (Tessa Fights Robots) published this document that was apparently circulated to doctors with patients insured by Anthem Blue Cross and Blue Shield Medicaid in the state of Kentucky.

Anthem Blue Cross and Blue Shield Medicaid

COVID-19 Vaccine Provider Incentive program

Getting vaccinated against COVID-19 is one of the best and safest ways people can protect themselves and their families against the virus. As a participating practice in the COVID-19 Provider Vaccine Incentive program, we recognize your hard work by offering incentives for helping patients make the choice to become vaccinated.

Eligibility

The COVID-19 Vaccine Provider Incentive program is open to you if you are a participating Kentucky primary care provider with an Anthem Blue Cross and Blue Shield Medicaid (Anthem) panel size of 25 or more members. All Anthem members identified as receiving COVID-19 vaccination services are included in the methodology. Vaccine results will be determined by a COVID-19 vaccine claim or by confirmation from the Kentucky Vaccine Registry.

The results will be calculated for two time periods:

- September 1, 2021 – Initial incentive payment
- December 31, 2021 – Final incentive payment

How you can qualify for a bonus

If your practice meets the below thresholds for vaccination with at least one dose by September 1, 2021, you will receive the initial incentive payment based on the following rates:

- 30% Anthem members vaccinated – \$20 bonus per vaccinated member
- 40% Anthem members vaccinated – \$45 bonus per vaccinated member
- 50% Anthem members vaccinated – \$70 bonus per vaccinated member
- 60% Anthem members vaccinated – \$100 bonus per vaccinated member
- 75% Anthem members vaccinated – \$125 bonus per vaccinated member

The document raises a number of intriguing questions. I wonder: How many members might be registered in a given practice—that is, how many of those \$125 bonuses per vaccinated member could a busy and efficient doctor with a good support staff receive?

Secondly, how many of these “COVID-19 Vaccine Provider Incentive Programs” were operating in the United States during 2021?

As we awakened souls try to figure out what’s going on in our bizarre world, it’s always useful to *follow the money*. It almost always leads to the explanation for any strange state of affairs that puzzles us.
