

THE ILLUMINATI. LEARN OR DIE THERE IS NO SAFETY IN IGNORANCE (VIDEO, 115 MIN)

Description

Since long before the time of Napoleon, secret societies have been influencing politicians to take over and conquer Europe and then the world. Now, in the 21st century, their work of ages is coming to fruition. The New World Order is about the centralization of power. It is about enslaving and controlling everything including people. It's about silencing any public criticism of the system. It's about commercializing and selling everything as a product including humans.

It's about letting China torture students and still allowing them to host the Olympics. It's about closing down government owned schools and hospitals, turning them into apartments or FEMA camps, and then letting private companies make profits from teaching your children or selling you drugs.

And now corporations and governments are allowed even to profit from killing you and your children. The secret societies and political organizations running the New World Order use various symbols and numbers. Once you learn their secret language, you too will have eyes that can see. They want to turn the state into your God. I myself will have none of it. I will die first.
