

The vaccinated now account for a majority of COVID deaths.

## Description

USA: Thanksgiving for Fauci's exit.

There's a remarkable concession appearing in The Washington Post today:

**“a majority of Americans dying from the coronavirus received at least the primary series of the vaccine.”**

The latest data shows that 58% of COVID-19 deaths in August 2022 were from people who were vaccinated or boosted. Based on past figures and the current trends, we can reasonably estimate that the number of vaccinated/boosted COVID-19 deaths will only rise. (In September 2021, the vaccinated accounted for 23% of COVID-19 deaths; in January/February 2022, the vaccinated were 42%.)

This is what happens when you rush ineffective and dangerous vaccines.

The FDA's promises of efficacy – 91% for the Pfizer vaccine and 93% for the Moderna vaccine – were always based on hope, not data. So too were the promises of safety. At the time of the official approvals, both Pfizer and Moderna hadn't submitted any type of long-term numbers on effectiveness. Their trials were polluted with the unblinding of participants and their safety studies are “ongoing.”

Now, we're seeing efficacy numbers plummet within months of vaccination. The pandemic is of the vaccinated. The boosters? They're to the benefit of the medical establishment and the pharmaceutical companies, as they mask the true problems with the two-shot vaccines.

Even with these numbers, the outgoing Anthony Fauci continues to vouch for the jab, stating the data “overwhelmingly show the effectiveness of vaccines.”

This is the same man who demanded school closures, inserted himself into the 2020 election by criticizing Trump's COVID-19 response while complimenting China, and criticized Governor Ron

DeSantis for reopening Florida's schools.

All the while, Fauci was lying to the public about COVID-19 origins. In May of 2020, he told National Geographic that COVID-19 "could not have been artificially or deliberately manipulated."

What he didn't tell us was that he and US government clients were sabotaging and shutting down research and fact finding into the lab leak theory. What he didn't say was that internal communications among himself and Francis Collins and Jeremy Farrar, revealed through a FOIA request by Jimmy Tobias, discussed "accidental lab passage in animals" and how the Wuhan lab was the "Wild West" and why the lab leak was a serious possibility.

Surely that wouldn't be done in a BSL-2 lab?

Maybe we'll get the truth once Republicans take power. Fauci has promised cooperation but be assured he'll continue to be the slippery little doctor. Then there's the lawsuit against the Biden

Administration where [Fauci is being deposed today](#). It's a bit more difficult to evade questions from seasoned attorneys who have you for eight hours.

In any event, tomorrow at the dinner table, as you contemplate your blessings and eye the turkey, give an especially heartfelt thanks that this little megalomaniac will no longer curse the public with his presence.
