

The Vaccinated — Smiling Soldiers Marching to their Death

Description

The self righteousness of vaxxed people reminds me of these soldier-dupes going to die in the Battle of the Somme...One million did. Satanist bankers convince the goyim that it is courageous and patriotic to commit suicide. Similarly, the vaccinated are cannon fodder in this the latest genocidal world war against humanity. Satanism is the religion of sickness, death and destruction.

Today's post consists of a few random observations and quotations.

History has caught up with us. For most, Covid Communism is our first experience of the Cabalist cancer that afflicts mankind and has murdered millions. It is our first taste of political persecution. It's our first taste of adversity.

The minute our feckless ancestors gave Satanists control of the banking system, mankind was doomed.

(Of course, we hope he is wrong since it includes our loved ones.

One reader claims this quote is not accurate. "These false statements, which are circulating all over the world, have been attributed to him.

simply indicated that we know nothing about the possible side effects of this new vaccine technology. He did however mention the possible occurrence of cancer. He indicated that he personally would not be vaccinated.”)

The banking system is the blood supply of society. **The blood supply is poisoned.** Symptoms include “diversity,” “multiculturalism,” big tech censorship, leftist indoctrination, BLM, gender dysphoria, migration, miscegenation, (anti-white) racism, pornography, sexual liberation, false flag terror, globalism, and of course the covid scam and lockdowns.
