The vaccines are killing more people than they are saving!

Description

Vaccine Madness

Hammers Thor
NC Renegades

Notwithstanding the articles posted below this one concerning the abject moral depravity that led to the creation of these COVID "vaccines", here is additional information regarding why they are so dangerous…

"We now live in a nation where generals destroy military readiness, doctors destroy health, airlines destroy air travel, the Justice Department destroys justice, and now we have a vaccine that does not vaccinate. The COVID-19 vaccines were supposed to eradicate COVID-19, but now that hundreds of millions are vaccinated the virus is killing more people than ever. Worse yet, the global economy is breaking under the strain. But the "leaders" of West are relentless; – especially President Biden, who has compared the experimental COVID vaccines to vaccines for polio, measles, mumps, etc. We want a cure, right? Biden says *the vaccines are the cure.* But the numbers suggest otherwise.

According to Steve Kirsch, the Executive Director of the Early Treatment Fund (stk@treatearly.org), **"The vaccines are killing more people than they are saving."** Going by the statistics shown in a September 15 article in *The New England Journal of Medicine*, approximately 10,000 American lives have been saved by the vaccines. At the same time, according to a detailed study by Steve Kirsch, Jessica Rose and Mathew Crawford, vaccines have caused 150,000 excess deaths (SOURCE). One of the studies they cite, puts the number of vaccine deaths over 205,000.

The Kirsch-Rose-Crawford paper drew conclusions from several peer-reviewed studies. For example, take a look at Ronald N. Kostoff's study, "Why are we vaccinating children against COVID-19?" In essence, Kostoff shows that inoculation-based deaths are an order-of-magnitude greater than the COVID-19 deaths. Yet another study shows that the Vaccine Adverse Event Reporting System (VAERS) is not accurately tracking deaths or adverse reactions. **According to Jessica Rose, writing in the October 2021 issue of *Science, Public Health Policy, and the Law*, VAERS data is being improperly deleted and there is a serious lag-time in registering reports. Using statistical**

modeling to calculate the actual number of vaccine deaths, Rose estimated "205,809 dead, 818,462 hospitalizations, 1,830,891 ER visits, 230,113 life-threatening events, 212,691 disabled and 7,998 birth defects to date." (3) Also, consider "The Vaccine Death Report," by David John Sorensen and Dr. Vladimir Zelenko, MD, which suggests millions have already died from COVID injections worldwide and hundreds of millions already have serious side effects. Sorensen and Zelenko state, "**The data shows we are currently witnessing the greatest organized mass murder in the history of our world.**" Here is what a CDC whistleblower, in a sworn affidavit, says about the actual number of vaccine deaths:

> I have, over the last 25 years, developed over 100 distinct healthcare fraud detection algorithms, both in the public and private sector…. When the COVID-19 vaccine clearly became associated with patient death and harm, I was inclined to investigate the matter. It is my professional estimate that VAERS … database … is under-reported by a conservative factor of at least 5…"
