

They killed your granny, now your kids . . .

Description

Dr Vernon Coleman, international best-selling author and retired GP, is horrified that the UK Government now wants children to have an experimental jab that offers them very little but may kill them. You must watch this.

Politicians are puppets, the puppeteers avoid the spotlight. Every politician and world leader that pushes the death shot is under the dragon's wing of Big Pharma. The 5 who weren't were killed recently and one attempt failed (Belarus prez A. Lukashenko).
