

They Planned It From DAY ONE — Tom Renz Interview (VIDEO 75 min)

Description

We've gotten to a place where vaccine injuries and deaths are hitting a number the media and politicians can no longer hide. I mean, people will only believe in sudden adult death syndrome for so long. So what comes next? Well, my guest today, attorney Tom Renz, has been sounding the alarm that they're gonna try to pin the blame on Trump. And if you check out recent media reports, it looks like they are gearing up to do just that.

Today's show is brought to you by Rise.TV, where it's our mission to awaken, uplift, and unite America—one show at a time.
