

They're Literally Experimenting On Us — Different Dosages and Blends for Different Batches

Description

USA: When you take into consideration the doses given politicians: Biden, Harris, Trump, Pence, Pelosi, Schumer, Mitch McConnell, Lindsey Graham and the majority of members, of both parties, in both houses of Congress and the outcomes, a red flag should appear in your mind.

Why? Harris is the only one I have heard stating that she only had mild flu like symptoms from the COVID19 jabs. I recall her to have taken Moderna.
Not one former member of the political mob, current or past, has reported any Adverse Events.

Imagine That! This 117th Congress includes the most geriatric members in history. Older people are said to be the most at risk. Just think; not one has suffered a neurological injury or death.
Amazing! The non-adverse effects of mRNA & Viral Vector vax upon member of Congress is proof enough to reveal that Yes! Big Pharma gives out special vial doses to the vax that are mild and less harmful to people who must not report adverse events.

Why so? Reports of adverse events within groups such as politicians, federal and state department heads, and celebrities would hinder or stop sales of Big Pharma vax.

Their plan appears to be: injure and kill ordinary citizens; then, come back later to injure and kill politicians et al. people with the boosters.
