

Top 7 reasons mRNA COVID JABS are much more DEADLY than any other “vaccine” ever created

Description

Never before have so many humans suffered from post-traumatic vaccine disorder. PTVD is sweeping the globe as the spike protein prions clog and clot the vascular system of those “vaccinated” with the gene mutation injections. In fact, mRNA “technology” is so deadly that the FDA never got approval to use it for humans, and even the “emergency use authorization” was not valid because there were several other alternative treatments for Covid that proved effective, including hydroxychloroquine, ivermectin, vitamin D and zinc.

Even though many vaccines contain known neurotoxins and carcinogens, like mercury, aluminum, peanut oil, dairy, GMOs, latex, MSG, and human albumin, they still are not as dangerous and deadly as mRNA Fauci Flu jabs. In fact, the Wuhan Virus injections have killed and maimed more humans than ALL other vaccines combined.

According to VAERS, hundreds of thousands of Americans are dead due to the Fauci Flu jabs, and several million injured

In 2021, there was a massive jump in vaccine-related deaths like the world has never seen before. The CDC claims this is from over-reporting, but everyone and their brother who’s ever tuned into truth news about vaccines knows that the vaccine-induced injuries and deaths reported to VAERS are vastly UNDER-REPORTED, by as much as 540 percent, and therein lies the rub. There were (and still are) more adverse events reported for the mRNA Covid jabs than for ALL other vaccines in history combined.

The FDA never really got any true approval for the use of mRNA jabs on humans. This was all faked. The EUA, “emergency use authorization,” did not apply to the mRNA Covid jabs, because that type of use only applies when there are no other alternative medications or treatments that can mitigate the disease, and we know for a fact there were several. The CDC, WHO, and FDA buried these known treatments, censored them, outlawed them, and persecuted doctors who prescribed them or even just recommended them. Ivermectin is 90 percent effective at mitigating Covid, and with next-to-zero

adverse events or side effects. Go figure. Then there's vitamin D and zinc. Don't forget about hydroxychloroquine also. That's why EUA was never proper for the situation, so 270 million Americans got at least one toxic spike protein jab that was 100 percent experimental, dangerous, unsafe, and never proven effective. Get it?

The CDC, WHO, and FDA also lied outright about how the Covid vaccines "remain at the injection site," embedded in your muscle tissue. Lie. The spike proteins created by your cells travel throughout the entire vascular system, flooding every organ with toxic, virus-mimicking prion particles that cause massive inflammation, heart stress, and even infertility. Look it up. Check out [spontaneous abortion](#) post-Covid-jab. And now, without further adieu...

Top 7 reasons mRNA fake vaccines are much deadlier than any other jab ever manufactured and administered

- #1. mRNA jabs were never even approved by the FDA (even the "emergency use authorization" was faked because there were other alternatives to fighting Covid available).
- #2. They clog your vascular system with spike proteins, causing mass inflammation (MIS).
- #3. There is no guarantee of when mRNA stops producing toxic spike prions.
- #4. They trick your cells and alter their natural function.
- #5. Each jab and booster causes worsened auto-immune dysfunction and less immunity against future infections.
- #6. mRNA is an experiment and has never been proven safe or effective.
- #7. The jabs kill animals tested and human babies in the womb, and cause infertility.
