## Total News Blackout: US General Captured Leading Azov Nazis in Mariupol (confirmations coming in)

### Description

USA: Warning: A NATO/Internet wide National Security Letter has been issued blocking all reporting of the alleged capture of an American general in Mariupol.

*Our sources on the ground report that the last two helicopters trying to evacuate foreign VIPs from Mariupol were shot down this morning. They were sent on a suicide mission to collect Lt. General Coultier, who was, we are told, hiding in a huge industrial complex with some Special Forces staffers and about 30 Ukrainian Army, not Azov, soldiers. This hours old story from Tass is below.*

From KP.Ru:

**On the morning of April 5, another attempt by the Kiev regime to evacuate the leaders of the Azov nationalist battalion and “others” was thwarted near Mariupol. Two Ukrainian Mi-8 helicopters, which tried to break through to the city from the sea, were shot down from man-portable anti-aircraft missile systems, Igor Konashenkov, spokesman for the Russian Defense Ministry, said at a briefing.**

**Note that this is the third attempt by Kyiv to pull its war criminals from the crime scene. But it ended the same as the previous ones: the helicopters did not reach Mariupol.**

***Reports from our friends in the Pentagon say “something’s up” and panic has set in at the White House. Minutes ago, the general showed up on his Linkdin account and we are told that the ranks of retirees and crisis actors (yes they exist) are being scoured for fat bald types that can be green-screened into a show and tell with Zelensky, believed to be hiding in Poland.***

Twitter, YouTube and Facebook are busy erasing all posts tied to this, even faster than usual. We await broader confirmation but, if Russia is holding him, they are unlikely to announce it but rather use it as a secret bargaining chip to hold over Biden's head.

Based on this, and having seen similar issues where an Israeli general was captured in Syria (confirmed, they sent us his ID card)...and VT helped negotiate his return to his family (for millions paid to Shiite militias).

We have sources that claim Cloutier had been in and out of Syria through Turkey, working with ISIS and al Qaeda there as well and with terrorist groups in Africa.

We say "no denial can be believed...we are now in 'new territory'"

There are numerous reports currently circulating claiming that U.S. Army Lieutenant General Roger L. Cloutier was captured by Russian forces in or near Mariupol, Ukraine, where reports claim he was assisting the Azov battalion, which is the official Nazi unit of Ukraine.

Oh boy. US General Roger Cloutier was most definitely involved in training Ukrainian soldiers, as this photo attests.

A letter to the Pentagon sent a few hours ago went unanswered, which, from a media perspective, is very unusual. If the message had been false, the Pentagon would have denied it immediately. They did NOT deny it. But there has been no official response from the Pentagon as of 6:10 p.m. EDT on Monday.
