

Trump Calls for Investigations into Soros-Funded DA's, Communists, Anti-Christian Persecutors

Description

USA: President Trump is calling for investigations into the Soros-funded prosecutors and devout communists who have infiltrated and weaponized America's legal system, using the levers of power to attack Christians and other groups of American Patriots standing in the way of the total destruction of the Republic.

President Trump released a video statement announcing portions of his "Agenda 47" plan to save America, a centerpiece of his 2024 run for the presidency. Under Agenda 47, Trump says that he will take on the weaponization of the American justice system and "completely overhaul" the corrupt DOJ and FBI.

There is no greater "threat to the American way of life than the corruption and weaponization of our justice system," President Trump said, adding, "If we cannot restore the fair and impartial rule of law, we will not be a free country."

To take on the nationwide network of Soros-owned prosecutors (like Alvin Bragg) who are directing much of the political persecution of patriots and the perversion of American law, President Trump said that he will "appoint US Attorneys who will be the polar opposite of the Soros district attorneys and others that are being appointed throughout the United States."

"They will be the 100 most ferocious warriors against crime and communist corruption that this country has ever seen," President Trump vowed.

"As we completely overhaul the federal Department of Justice and FBI, we will also launch sweeping civil rights investigations into Marxist local district attorneys – and that's what we have, we have Marxists in many cases."

"By refusing to charge countless crimes, the Soros prosecutors appear to be engaging in selective enforcement based on illegal racial discrimination," Trump said, highlighting the inner city free-for-all of

violent crime that's being waged against White and Asian Americans.

"In Chicago, San Francisco, Los Angeles, and every other city where these maniacs have taken over, the DA's offices should face federal subpoenas of their staff, their emails, and their records to determine whether they have blatantly violated federal civil rights laws."

"As part of this effort, there should be a federal inquiry into the Soros prosecutor in Austin, Texas, who charged a veteran with murder for defending himself against a threat from a heavily armed member of a radical left mob," said President Trump, highlighting the murder conviction of **US Army Sgt. Daniel Perry**, who was cleared by the Austin Police in the self-defense shooting before being persecuted by Austin's Soros-owned DA.

Because of Sgt. Perry's phony conviction and others like it, President Trump says that under Agenda 47 he will establish a DOJ task force to protect Americans' right to self-defense.

"I will do whatever it takes to save our legal system," President Trump vowed, adding that the American legal system ranks "among the greatest achievements of Western Civilization."

Watch the [video](#) below:

The announcement that Agenda 47 will work to re-Americanize America's justice system comes as President Trump announces numerous aspects of his plan. Recently, he also announced that Agenda 47 will "shrink the size and scope of the federal government," while forcing employees to know and respect the US Constitution or get out of government.

While working to shrink the size and scope of the federal government, Trump's Agenda 47 plan will also work to ensure that federal employees actually know and respect the US Constitution.

"I will require every federal employee to pass a new civil service test, demonstrating an understanding of our constitutional limited government," says President Trump. "This will include command of due process rights, equal protection, free speech, religious liberty, federalism, the Fourth Amendment protections against unreasonable search and seizure – I know all about that Mar-a-Lago – and all other constitutional limits on federal power."
