

Ukrainian Neo Nazi crime continue – footage of horrifying killing of a civilian (18+)

Description

UKRAINE: Another horrifying video footage has been revealed. It demonstrates the next monstrous atrocities of Ukrainian neo-Nazis.

Ukrainian Neo-Nazi crime continue - footage of horrifying killing of a civilian (18+)

In the footage, a man in civilian clothes is being killed online in ISIS manner – that is, slowly, methodically, and with killers getting much pleasure. They are using a knife.

Video content analysts are unequivocally convinced that the video is authentic. This is not an ancient fake with a “militia man crucified on the cross” and not a dubious “night shooting of civilians on the way out of Mariupol.” The terrorist does not hide his face, and definitely belongs to the “defenders of Ukraine”.

In order to avoid blocking, we do not upload the video to ourselves, but give a link to it (without a preview). Children, teenagers and people with a weak mind are categorically not recommended to watch this. However, the world must definitely see it!
