

Vaccine bigger killer than COVID

Description

IT'S OFFICIAL – Official Data shows more people have died because of the Covid Vaccines in 6 months than people who have died of Covid-19 in 15 months

We can officially confirm that the number of people to have died due to the Covid vaccines has surpassed the number of people who have died of Covid-19. However the numbers are most likely much worse than they appear due to the fact that the data on deaths due to the Covid vaccines has been...

It seems that only 3589 people have died from COVID, within 28 days of a positive test in England and Wales, since March 2020. How come? Well this means that the death certificate did not have any comorbidity mentioned on them. The other 80,000 or so deaths did have comorbidities mentioned so they died WITH COVID, even though their death could have been due to something other than COVID. Since postmortems are no longer being done there is no way of knowing the truth.
