

Video: Biden ‘Wonders Where The Hell The President Of The United States Is’

Description

USA: In another senior moment, Joe Biden stated Friday that he often wonders where the President of the United States is.

Biden was speaking at the White House during the National Governors Association Winter Meeting when he noted “Every time I hear ‘the president of the United States,’ I look around and say ‘Where the hell is he?’”

Biden also didn’t appear to know what was going on:

At other times he floundered and mixed up things he did 14 years ago with his Presidency:

Biden: "We passed a little thing that was a trillion, 800 billion dollars called the Recovery Act [in response to the pandemic]."

Every time he's speaking now something like this happens.

As we highlighted earlier in the week, close to two thirds of Democrats don't want to see a second Joe Biden term, a massive decline of 15 percent in just three months, according to a new poll.
