

Video: Dave Chappelle Attacked On Stage; Jokes “It Was A TRANS MAN”

Description

USA: Comedian Dave Chappelle was tackled on stage Tuesday by a man who was reportedly armed with a gun and a knife. Chappelle was not harmed during the incident and later joked that it “was a trans man” who rushed the stage.

Chappelle was performing at the *Netflix Is A Joke* festival in Los Angeles at The Hollywood Bowl when a clearly deranged person managed to lunge into him.

Watch:

The guy was reportedly quickly detained and by all accounts had the shit kicked out of him by Chappelle’s entourage and Chappelle himself:

The guy was later seen being carted into the back of an ambulance with his arm all messed up:

Chappelle told the audience “I don’t know if that was part of the show or... I grabbed the back of that n****s head, his hair was spongy, absorbant.”

He then joked that it was a “trans man”:

Chris Rock, who had earlier performed a set, came back on stage to deliver the inevitable and hilarious joke “Was that Will Smith?”
