

WE HAVE THE LIST: 1,000 Different Studies Show Evidence Of C-19 Vaccine Side Effects!

Description

AUSTRALIA: We are all tired of talking with liberal friends on the C-19 vaccine! [Informed Choice Australia](#) shared a list of peer-reviewed medical papers submitted to different medical journals, showing evidence of side effects in the C-19 vaccines.

The list includes studies up to January 20 regarding the side effects from the C_19 shots, including myocarditis, thrombosis, thrombocytopenia, vasculitis, cardiac, Bell's Palsy, immune-mediated disease, etc.

These are the 48 studies below:
