

WEF 'Infiltration': Rogan Redpilled, Canadian MP Cut Off For Asking – Accused Of Spreading “Disinformation”

Description

Last month, 2017 footage of World Economic Forum (WEF) head Klaus Schwab [resurfaced](#) in which he **boasts of having ‘penetrated’ various governments through its Young Global Leaders program**. The clip is [notable](#) because the WEF – known best for its annual gathering of the global elite in Davos – has been openly pushing for digital IDs and vaccine passports, while leaders of said governments continue to impose Orwellian vaccine mandates which have resulted in widespread protests for medical freedom.

*“I have to say, when I mention now names, like Mrs. **(Angela) Merkel and even Vladimir Putin, and so on, they all have been Young Global Leaders of the World Economic Forum ... But what we are very proud of now is the young generation like Prime Minister (Justin) Trudeau ... We penetrate the cabinets.**”*

*“So yesterday I was at a reception for **Prime Minister Trudeau** and I know that half of his cabinet, **or even more than half of his cabinet, are actually Young Global Leaders** .” -Klaus Schwab*

Watch:

Other notable Young Global Leaders [include](#): New Zealand Prime Minister Jacinda [“this will never end”](#) Ardern, French President Emmanuel Macron, and other high ranking officials from Germany, Finland, Greece, the Netherlands and Denmark. It might even explain Pete Buttigieg’s odd success-to-competence ratio.

Enter the pandemic

Three years after Schwab bragged about having ‘penetrated cabinets’ of world governments, he wrote in a [June 2020 publication](#) titled *Now is the time for a ‘great reset’* how the pandemic presented a “rare but narrow window of opportunity to reflect, reimagine, and reset our world to create a healthier, more equitable, and more prosperous future.”

Then in May 2021, the WEF [acknowledged](#) that “**The Forum is involved in the WHO task force to reflect on those [vaccine credential requirements] standards and think about how they would be used.**”

And so, given the WEF’s “infiltration” – people have begun asking questions over the group’s influence in current events.

1. My mind is still blown by the fact that Canada’s deputy prime minister Freeland sits on the World Economic Forum (WEF) board of trustees.
The sequence of events unfolding today was inevitable and fueled in no small part by the lassitude of Canadian political system.

Podcaster Joe Rogan appeared shocked at the WEF’s ‘infiltration’ in a recent episode of with Maajid Nawaz.

Meanwhile, **Canadian MP Collin Carrie was cut off when asking about the influence of the WEF in domestic politics.**

“Klaus Schwab is the head of the World Economic Forum and bragged about how his WEF has infiltrated governments around the world,” asked Carrie, who was then cut off when he asked which ministers were behind the WEF agenda – with the speaker saying the sound had become “very poor.”

Another MP then accused Carrie of “disinformation.”

As Jeremy Loffredo and Max Blumenthal [wrote last October](#):

On paper, the WEF (also known as the International Organization for Public-Private Cooperation) is an NGO and think tank “committed to improving the state of the world.” **In reality, it is an international network of some of the wealthiest and most influential people on the planet.** The Forum positions itself as the thought leader of global capitalism.

The organization is best known for its annual gathering of the global ruling class. Each year, hedge fund managers, bankers, CEOs, media representatives, and heads of state gather in Davos to “shape global, regional and industry agendas.” As Foreign Affairs [put it](#), “the WEF has no formal authority, but it has become the major forum for elites to discuss policy ideas and priorities.”

In 2017, German economist and WEF founder Klaus Schwab introduced the concept of “**[The Fourth Industrial Revolution](#)**” with the title of the book he published that year. The Fourth Industrial Revolution (4IR) denotes **the current “technological revolution” that is changing the way people “live, work, and relate to one another,” and with implications “unlike anything humankind has experienced,”** according to Schwab.

[For him](#), the 4IR is the “merging of the physical, digital and biological worlds.” Schwab has even said that the 4IR will inevitably veer into trans-humanism, or human genome editing.

Klaus Schwab, 2015:

‘And you see, the difference of the fourth industrial revolution is, it doesn’t change what you are doing, it changes you. If you take genetic editing just as an example, it’s you who are changed’ [#greatreset](#) [#thegreatreset](#) pic.twitter.com/IWFJoqrVkG

Why are Canada and other nations dying on this hill of mandates for a virus where the current dominant strain is largely a nuisance for the vast majority of those who contract it?
