

When the “Nuremberg Code Trials” begin for the Covid Plandemic & Weaponized ‘Vaccines’, the following website will function as a major evidentiary database for attorneys worldwide

Description

The publisher and curator of no jab for me is a highly dedicated watchman who describes his great and noble mission as follows:

My name is Paul Adams. Not in a million years did I expect to be immersed this deep into a cause. I am a one man team, just a retired guy doing my part to shed light on the facts – just the facts – with God’s help, and I want to emphasize “with God’s help”.

On April 22, 2020 I uploaded [this video](#): The Who and Why of the Covid19 Doctored Stats.

[The Wonderful World of Vaccine Side Effects](#) was published on December 19, 2020, before the jabs were introduced to the public. The video features a CDC/FDA document published in October 2020 and lists the numerous adverse events that were never included in the packing of these jabs, and that no pharmacist or doctor dares discuss. In total, I published over 100 videos that can be found in my Rumble.com channel: 444age.

Nojabforme.info was launched in February 2021 with 125 links. As of July 2022 it contained 584 links, providing a preponderance of evidence to help any jury arrive at the only conclusion beyond any reasonable doubt: that crimes against humanity have been and are being committed.

I also created: covidfear.exposed.

[Nojabforme.info](#) has been denied services by PayPal, Google Drive, pCloud, Patreon, MailChimp, and YouTube. Twitter and Facebook issue warnings.

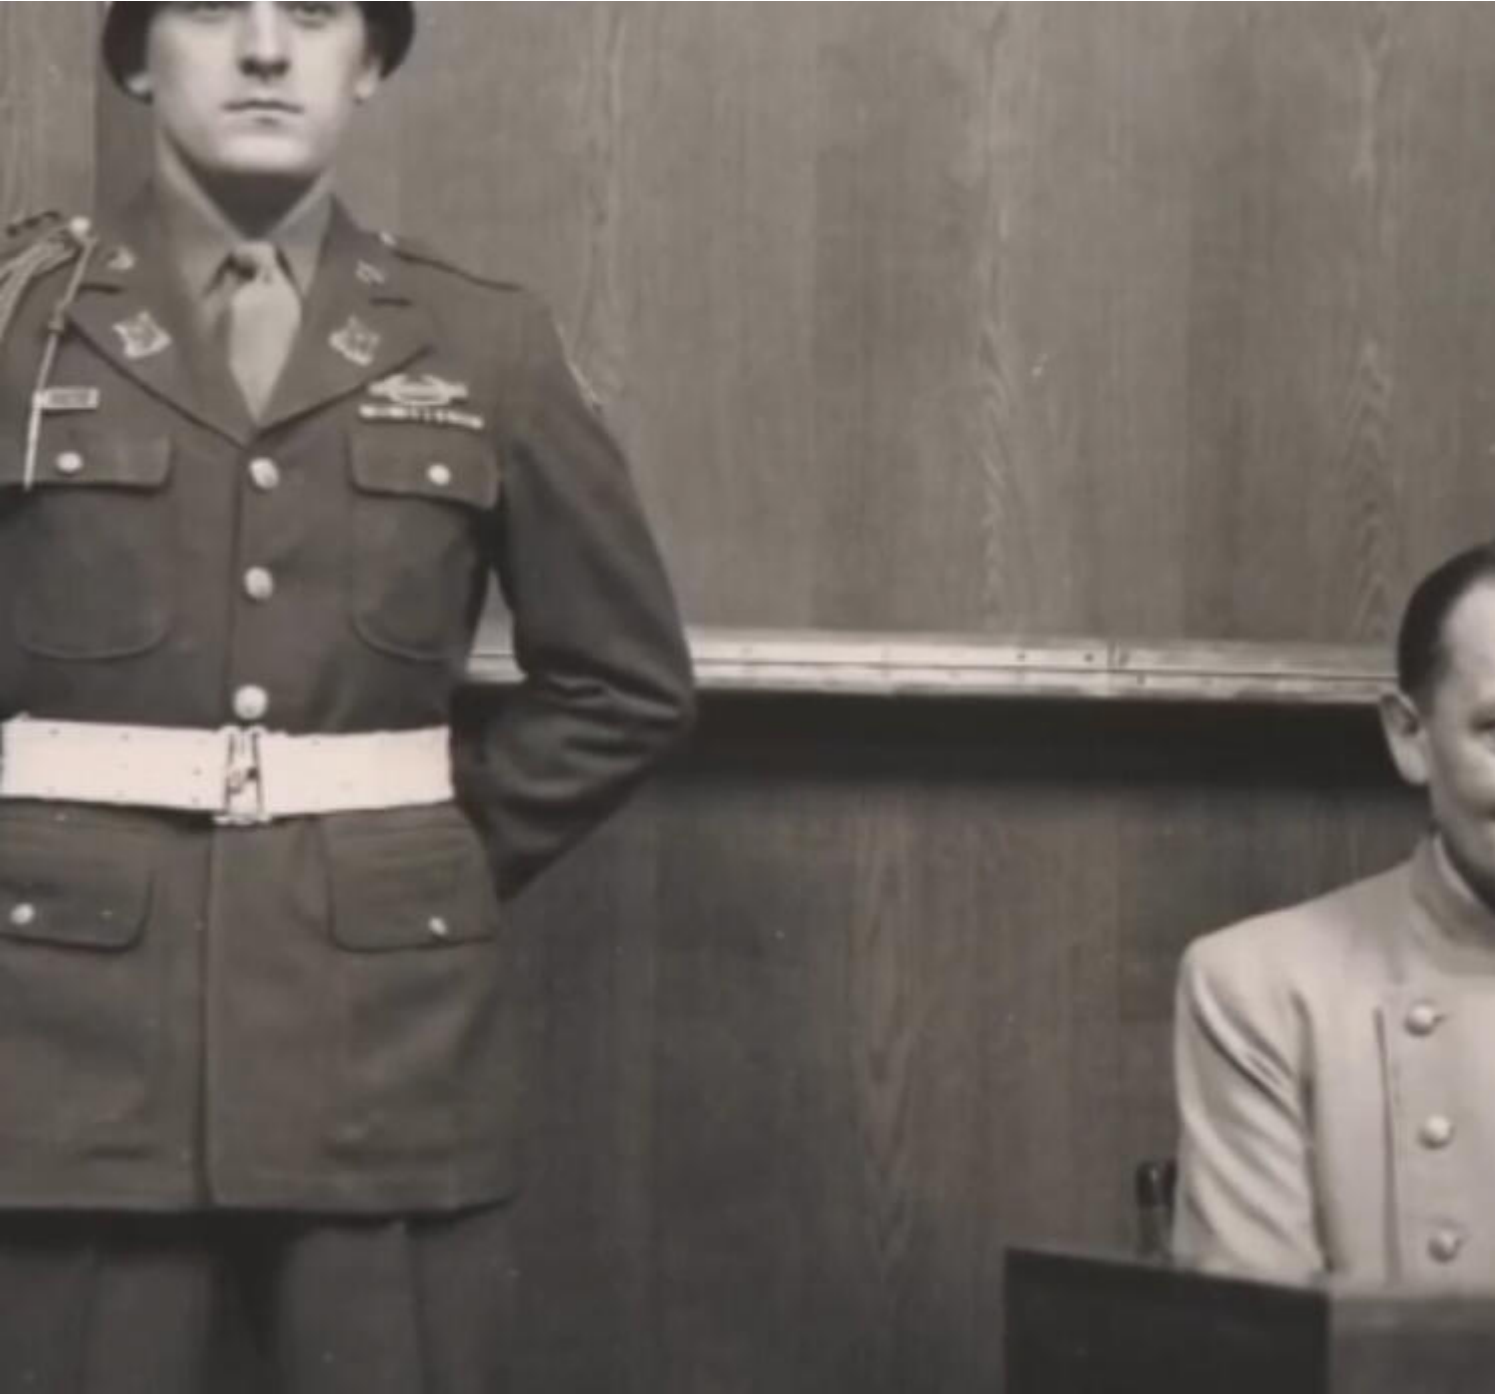

Statements in this site are substantiated with facts that will stand in a court of law.

Free Informed Consent is the hallmark of modern medicine. The Nuremberg Trials following WW2 ensured that never again would people be subjected to cruel medical experiments without their free informed consent.

Patients always sign consent forms when admitted to hospitals. Informed Consent requires a flow of accurate, unfiltered information. Now, hospitals have disguised vaccines as biogenics. Failure to provide Informed Consent to anyone receiving a medical intervention, especially an experimental technology that is proving to be the most lethal in the history of vaccines, constitutes a Crime Against Humanity.

Any kind of obfuscation of the facts to pressure someone to be experimented on with an untested medical injection or the imposition of penalties on people for refusing to be guinea pigs contravenes the Nuremberg Code and 21 U.S. Code § 360bbb–3.

Mary Holland, President and General Counsel of Children's Defense Fund, in this [gathering](#) reiterated the need to prosecute those who have been contravening the Nuremberg Code with impunity since the outset of Covid-19. I am available for speaking engagements.

Anyone trying to take down this site either by disabling links or posting warnings that this site is dangerous, will be named as codefendant in the equivalent of another Nuremberg trial for Crimes Against Humanity. That includes social media. Lawyers are standing by. The below video contains my statement:

not fight the battle would be to condemn the WW2 prisoners of war to their same fate all over again.
