

“You Cannot Let These Guys Control Discourse in This Country Or We Are Headed to Hell” – CNN Analyst Melts Down Over Musk’s Purchase of Twitter (VIDEO)

Description

The same leftists who claimed social media isn’t censoring conservatives are melting down over Elon Musk’s decision to buy Twitter.

Elon Musk purchased Twitter for \$44 billion dollars last week and the left is not taking it well.

Musk has stated that he believes ‘free speech’ on social media should match the law of the country.

“I am against censorship that goes far beyond the law,” Musk said.

The Biden Regime is so frightened over Musk’s decision to buy Twitter that they responded by creating an Orwellian, unconstitutional “Ministry of Truth.”

Twitter censored the Hunter Biden laptop story shortly before the 2020 election so Joe Biden is working overtime to make sure he has full control over the internet.

The lunatics at CNN are also melting down.

CNN media analyst David Zurawik on Sunday said it’s dangerous with Elon Musk buying Twitter and asserted we need to look to Europe for answers.

“You need regulation. You cannot let these guys control discourse in this country or we are headed to hell. We are there. Trump opened the gates of hell and now they’re chasing us down,” David Zurawik said.
