

## Yuval Hariri Tells You What The Vaccines Really Do

### Description

Let's review what we do know about the new COVID gene alteration therapies that really distinguishes them from actual vaccines, shall we?

They don't prevent you from getting COVID.

They don't prevent you from spreading COVID.

They don't limit the severity of COVID if you get infected.

In fact, *they don't do anything that vaccines are supposed to do*. This raises a profound question: what are they really supposed to do?

There happens to be an Israeli professor of history who has profoundly influenced Klaus Schwab and the global cartel of trans-humanist oligarchs — and he's more than happy to tell you what the vaccines actually do. He's the leading thinker, the arch-guru, of the Silicon Valley dictator set. His name is Yuval Hariri.

At one globalist conference, he explained exactly what the COVID pandemic was being used by the globalist elites to do: "COVID is critical because this is what convinces people to accept, to legitimize, total biometric surveillance. If we want to stop this epidemic — we need to not just monitor people, we need to monitor what is happening underneath their skin."

Yuval Hariri has said similar things at many other conferences and lectures as well: "Maybe in a couple of decades, when people look back, the thing they will remember from the COVID crisis, is: this is the moment when everything went digital. This was the moment when everything became monitored — that we agreed to be surveilled all the time. Not just in authoritarian regimes but even in democracies."

This was the moment when surveillance went under the skin.”

Do you see? COVID is not the “accidental” release of a bioweapon derived from a Chinese bat coronavirus — it’s actually an opportunity for governments and global corporations [to create a total surveillance system](#) around the world that will ultimately control every human being.

This sounds like science fiction. [It is not](#). There are [secret ingredients in the COVID vaccines like graphene oxide](#) (that [the corporate media tells you is a conspiracy theory](#) of course!) that can transmit data outside the body — like your heart rate.

What do the COVID vaccines really do? They usher in the Age of Total Surveillance.

Professor Hariri explained this new and terrifying reality (that he wants to usher into the world) to the World Economic Forum in 2018 where our corrupt elites embraced the idea that *they* would be the immortal masters of the world while *they enslaved the rest of us* in their new “digital dictatorship.”

Professor Hariri is not alone in his depravity — just [check out what DARPA is working on](#). Needless to say: DARPA (and the Pentagon more broadly) is *not really in the healthcare business* and couldn’t be less interested in “healing bodies” more effectively. This is simply the cover, the excuse, for the radical intrusion into every sphere of human life which can only be called: totalitarian techno-fascism.

Hariri is not really a humanist either— he doesn’t have any love for humanity. Nor is he really interested in the preservation of democracy. He is the pseudo-prophet of a one world government that would enslave humanity forever using a version of communist China’s social credit system to keep the masses under control.

For instance, Professor Hariri predicts a future where the machines we have created have no more use for humans (because of Artificial Intelligence) and so “by 2050 a new class of people might emerge – the useless class. People who are not just unemployed, but unemployable.” Why would we allow such a future? The premise of the question is not something Hariri explains for obvious reasons. Why would he? He’s on the side of the machines.

Technology is going to turn the Davos crowd into gods, and the working class into peasants to be eliminated as so many “useless eaters.” After all, we humans “should get used to the idea that we are no longer mysterious souls.” We are “hackable animals” so Hariri wants you to *get ready to be hacked*.

World Economic Forum’s, Yuval Hariri saying that, “We, Humans need to get used to the idea that we are ‘No Longer Mysterious Souls’”. Horrific. [pic.twitter.com/il42J9s7SS](https://pic.twitter.com/il42J9s7SS)

The best way to describe Hariri’s worldview is that he is a nihilist — but nihilism doesn’t really capture how dark and dangerous his thinking happens to be: “As far as we can tell from a purely scientific viewpoint, human life has absolutely no meaning. Humans are the outcome of blind evolutionary

processes that operate without goal or purpose. Our actions are not part of some divine cosmic plan, and if planet earth were to blow up tomorrow morning, the universe would probably keep going about its business as usual. As far as we can tell at this point, human subjectivity would not be missed. Hence any meaning that people inscribe to their lives is just a delusion.”

People like Hariri who believe that nothing is real and that everything is permitted are the most dangerous people of all — traditional morality to them is simply a construct that only the weak obey. Hariri’s atheism wants to touch the abyss, and summon the darkness. Even his pessimism is pessimistic. For him, life has no meaning. Free will is an illusion. God does not exist. Religions are transparently absurd attempts to create meaning. Truth is a fiction — only power is real. Humanity is not to be pitied so much as controlled by a superior race of the wealthy and the powerful that (no surprise) enjoy paying exorbitant fees to hear Professor Hariri discuss their future as gods on earth.

Yuval Hariri has only one soft spot, and that’s for animals in our food supply. He’s a vegan apparently: “Domesticated chickens and cattle may well be an evolutionary success story, but they are also among the most miserable creatures that ever lived. The domestication of animals was founded on a series of brutal practices that only became crueller with the passing of the centuries.”

“Let’s enslave humanity, and spare the chickens” is a strange message because chickens and cattle are animals that should be spared in Hariri’s view — but then humans are animals too (Hariri says this again and again) but we don’t deserve any sympathy in the final analysis.

One can’t help but notice the obvious self-hatred contained in these elementary philosophical contradictions that any 5 year old child would notice instantly. Hariri is not a great thinker. He’s not even a sub-par historian. He’s the limp-wristed avatar of a globalist cabal (Bill Gates, Xi Jinping, Klaus Schwab, Larry Fink) that seeks to destroy Western democracies in order to rule behind the scenes like so many Wizards of Oz.

These people are, in other words, the enemies of all humanity.
